# Your New Money Mindset: Create A Healthy Relationship With Money

## Synopsis

Your New Money Mindset is a new way of thinking about the role money plays in our lives. Many of us live with ongoing, and often unexamined, tension related to money. Few of us have really escaped the credit-card trap or freed ourselves from worries about having enough for the future. Co-authors Brad Hewitt, CEO of Thrivent Financial, and James Moline, licensed psychologist, believe we haven't spent enough time examining our fundamental attitudes toward money and aligning those attitudes to our core values. Before you can remake your money habits, you need to start with your heart. In Your New Money Mindset, Brad and Jim guide you through the Money Mindset Assessment, which will help pinpoint what attitudes about money you could work on in order to develop an openhearted attitude to life. The goal is to cultivate a surplus mindset that allows you to enjoy what you already have and be generous toward others. Discover today how to free yourself from the money trap and create a healthy relationship with money.

## Customer Reviews

Encouraging! Finally, a counter-cultural, proven, and practical approach to managing your relationship with money. (Jonathan T. M. Reckford, CEO of Habitat for Humanity International)A thought-provoking read! Fixing our money problems starts with changing our hearts. In a world filled with so much noise about finances, Brad and Jim show us how to create real and lasting change. (Ruth Soukup, New York Times bestselling author of Living Well, Spending Less)Filled with warmth and wisdom! When it comes to your faith and personal finances, Brad and Jim should be your two

new best friends. (Leith Anderson, President of the National Association of Evangelicals)

Brad Hewitt is president and CEO of Thrivent Financial, a not-for-profit Fortune 500 organization dedicated to helping Christians be wise with money and live generously. He speaks regularly on how a redefined relationship with money can help us find and live out our call in life. He and his wife live in Minnesota. James Moline, PhD, is a licensed psychologist who also holds a master's degree in theology (both from Fuller Theological Seminary). His lifelong passion for ministering to the homeless and the underserved has taken him around the globe both personally and professionally. He lives with his family in Minnesota. --This text refers to the Audio CD edition.

I thought the authors were going to teach how to add, subtract, multiply and divide in regard our income choices. Instead, this book is about one's need to understand their emotional ties to their money. As well as, exploring a person's road to prioritizing a relationship that God is with us in our monetary life.

This book is very helpful in prompting thought about all the cultural messages that shape our attitudes, often in hurtful ways, about money and stuff. The book also holds up generosity as a key to happiness - a highly counter-cultural (but true) contention. The authors provide lots of great anecdotes that illustrate their points.

very common sense and easy to follow. Brings up good points we should all think about.

Great food for thought, attitude and action.

Very informative

not a bad book on money

Brad Hewitt and James Moline in their new book, *Your New Money Mindset* published by Tyndale House Publishers gives us *Create a Healthy Relationship with Money*. From the back cover: Discover today how to free yourself from the money trap and create a healthy relationship with money! *Your New Money Mindset* is a new way of thinking about the role money plays in our lives. Many of us live with ongoing, and often

unexamined, tension related to money. Few of us have really escaped the credit-card trap or freed ourselves from worries about having enough for the future. Co-authors Brad Hewitt, CEO of Thrivent Financial, and James Moline, licensed psychologist, believe we haven't spent enough time examining our fundamental attitudes toward money and aligning those attitudes to our core values. Before you can remake your money habits, you need to start with your heart. In *Your New Money Mindset*, Brad and Jim guide you through the Money Mindset Assessment, which will help pinpoint what attitudes about money you could work on in order to develop an openhearted attitude to life. The goal is to cultivate a surplus mindset that allows you to enjoy what you already have and be generous toward others. When is enough enough? Who has the power over us: The Lord Jesus or a credit card? If someone needs from us do they know they can come to us and receive or are we the ones constantly in need? Jesus had a lot to say about the role of money in our lives and this book was written to help you to examine and understand your attitude towards and relationship with money. The authors help us see we all have a relationship with money and the value we place upon it while providing us with a biblical perspective on finances! This book will help you understand your attitude towards money has nothing to do with how much money you have or make or how many possessions you own or lack. This is a book that we will refer back to over and over again. This is also a book that will make a great gift to friends and family so that they can have a mind-change about money as well.

Disclosure of Material Connection: I received this book free from Litfuse Publicity Group. I was not required to write a positive review. The opinions I have expressed are my own. *Your New Money Mindset* Create A Healthy Relationship with Money  
Co-author Brad Hewitt CEO of Thrivent Financial  
James Moline Licensed Psychologist  
*A New Money Mindset* is a Christian book about generosity. The authors believe if we as Christians can manage our money better, then in turn we can maximize our giving. The book talks about us sharing not just money but our time, energy, wisdom, talents, attention, empathy, compassion and self. We should find ways to bless others, even when we feel we don't have enough money to do so. Many people will not give because they are waiting on getting enough money. When we believe God will supply all our needs, we don't have to wait in order to give. The book states that our mindset around money cause us to believe more "money" or "stuff" is the answer to our problems. In order to assess your money mindset we need to know where we are, before we can get to know where we are going. The book

uses fictional characters Ryan and Aylcia to demonstrate one couples unhealthy relationship with money. They both want a better life and who can blame them. They are hard workers who only want the best for their family. Ryan and Aylcia continues to spend more and more even afraid that their world will come crashing down around them. Fear and uneasiness is what happens when we live beyond our means. The book starts off talking about our money problems. Our culture makes it impossible for any of us to be content. Every year a new iPhone, iPad or iSomething comes out. It is hard stand on the sidelines watching everyone else run around trying to have more. Our kids if they go to college they get out saddle with debt and have to get a job to start paying the money back so they start out way behind and only with determination will they catch up or if they don't go to college they end up behind with low paying jobs. Most people long for security, no one wants to struggle. Feeling security comes from planning by taking a look at our lives and make a right practical decision. Having a strategy in place to overcome life fears and worrying by trusting in God. This books goes over the strategies in the chapter Living in Freedom by have a rich relationship with God. Consumerism is "our desire to acquire more for ourselves when we already have enough". The book states it is our obsession about money and all it can buy. The authors explain no matter where we are on the socioeconomic ladder, all of us can thrive right now--personally as a family and as a part of a community. The ripple effects of sharing that we have enough for ourselves and enough to share. Thrivent Financial came up with five distinct attitudes people hold toward money. The 5Ss are Surviving, Struggling, Stable, Secure, and Surplus. Surplus is where everyone wants to be. The authors state that always wanting more and more and keeping all for ourselves has not made us happy or brought joy into our lives. I found the book to be an easy read, what I got out of the book is that if I was smart with my money, resource and time, I could give in order to help someone else. The book was an easy ready and had some valid points about finances and giving. This book was provided to me free from the publisher through the Tyndale review blogger program. I was not required to write a positive review and, the opinions I have expressed are my own.
