Jack is THE expert on sales growth, sales teams, and sales culture. He can transform pitches, companies, and people in minutes. He's an unstoppable force and has taught me so much. This book is full, however, of stuff that I hadn't heard from him before. I love that it sounds like his voice - like he's talking me through these steps. Part of me wants to keep this stuff a secret - it's that good.

I started my sales career at 10 years old, when my father made me think that every kid sold flowers after school (he was a greenhouse owner and florist). Those sales days have served me well, 50

years later and I use them daily. Daly's book was a refresher course on how to be a successful relation builder, and not a "salesman". Regardless of your station in life, you will be well served by reading and practicing this book. Dan Marrazzo

Jack Daly continues to amaze me. The ideas he brings to the table for sales and business are unbelievably effective and yet so simple and truthful you feel embarrassed as to why you haven't been using them already. This book is filled with wonderful techniques and "Jackisms" that are sure to get your sales to rocket, fast.

I purchased the audio option & it was great! Jack's voice has a way to motivate and inspire you. The content is well organized and eye opening on how to implement best practices of Sales & Sales Management and create an awesome workplace culture. Jack's approach to establishing systems and processes to your business is equivalent to what it takes to be a champion team in any sport. I highly recommend buying "Hyper Sales Growth..." as soon as possible, and start growing your business exponentially.

In his book, Daly walks you through his step-by-step process showing you how to build a winning culture in your business, effectively manage salespeople, and maximize the speed of sales growth. The goal of this book is to create the best sales organizations in the industry with unprecedented growth and a lot of very happy customers. For your convenience, I had Jack Daly on my podcast, The Entrepreneurs Library, to give a deep dive on Hyper Sales Growth along with his personal experience in the business industry. With Jack's experience he gives amazing insight on turning your business into a sales machine. If you would like to hear a review from the author himself check out episode 96 and 228 at [theELpodcast\[dot\]com/books](http://theELpodcast.com/books).

I have had the opportunity to see Jack speak several times over the past few years and could not wait for his book to come out. There is not a more energizing speaker with a hard hitting and easy to understand message on how to be successful in sales or life. This book should be mandatory reading for anyone in sales management and for any sales person that truly wants to be a top performer. Jack does a great job of laying out that its all about systems and processes and culture. He has some great examples and stories. Its a very quick read. I bought additional copies for all my sales managers and already had to re-order for others who want a copy. I was excited yesterday to walk into one of our sales meetings and hear one of the managers giving a recap on the book and

some of the things we need to focus on. For sure this should be reviewed and read often.

Since I first met Jack back in the late 1990's he's wow'd me on his depth of sales experience. This is a MUST read for anyone in sales or any company wanting to grow. Simple, executable sales tips and systems for companies of all sizes. Jack is been the guru of sales for all of my clients too.

Absolutely Awesome! After having seen Jack speak many times over the years, I am so excited to buy and give this book to my team and my friends who want to grow their businesses. Jack writes the book from the heart and you can truly hear his passion and voice coming through the written word. I love giving out great books to my staff and friends and this one is truly a keeper. Thank you Jack Daly for all you have done for all of my companies and my employees. They have no idea the impact you have had on their lives by the wisdom you have shared in your book and your talks over the years.
