Judaism™'s Strange Gods: Revised And Expanded

Synopsis

In Judaism's Strange Gods: Revised and Expanded Christian scholar Michael Hoffman documents his provocative thesis that Judaism is not the religion of the Old Testament, but the newly formalized belief system of the Pharisees, which arose in Babylon with the commitment of the formally oral traditions of the elders to writing, in the wake of the crucifixion of Israels Messiah and the destruction of the Temple. Basing his findings on authoritative Judaic sources, Hoffman demonstrates that Judaism is a man-made religion of tradition and superstition, which represents the institutionalized nullification of Biblical law and doctrine. Liberating the reader from the accumulated shackles of decades of misinformation, this book that shows that Judaism's god is not the God of Israel, but the strange gods of Talmud and Kabbalah, and the racial self-worship they inculcate. Christian bookstores are packed with tomes purporting to unmask the religion of Islam, but not one slim volume will be found delving into the depravities of Orthodox Judaism. Judaism's Strange Gods: Revised and Expanded: corrects that imbalance with its fidelity to Biblical truth and the historic witness of the Church. Here is the best book on Judaism for educating people about the hidden side of this much glorified, but soul-destroying religion of warfare and deception. Hoffman deconstructs the facade of Judaism in clear and understandable writing, and does so charitably and without vitriol.

Customer Reviews

Interesting

New light on things.

Interesting but poorly organized. Illuminating if you have the patience to keep with him.

I have used this book referance. it is well researched and well written. There are hundreds of footnotes, these are at the bottom of each page, which makes checking them far easier than having to turn to the back of the book, which is to often the case.The information presented is accurate and the quotes from the Talmud are also accurate.My only cmplaint is that there is a couple of instances where information is given and no reference is given as to its source.I have a pretty good understanding of the teachings of Judaism and the Talmud and I believe that this book is a very fair look at something that most people have little or no understanding of.If you are looking for a book that will give you accurate information but is still fairly easy to read, this is it.

This i proof of a point I had already come to. The massive documentation of the point is valuable.

Very informative book. Opened up my mind to what is going on in Judaism. Needs to be read by those looking at the State of Israel.

It is a sad thing to find out that men through the ages, because of Traditions, Religion, self effort, Works and Pride of Power. that winds around the truth, like a vine winding around a well and healthy strong tree, to finaly cover the tree to only see the vine, the vine of deception. The truth being hidden from those looking for the tree. And this is what is happening when man and his Traditions of law of do and donts, you must, or else. Yes Confusion at it's best. and as we see in this book of the vine being cut away, so the truth can be seen by those who seek to know its fruit. When revealed, we see that men from years past, and are still hiding their sin of deception, not only from the people of the world, past and present But from themselves deceived.It is said, "TRUTH WILL SET YOU FREE" and it has been said; "MOST PEOPLE CANNOT HANDLE THE TRUTH?"and it is with this book many will not be able to hadle the truth of this information, even if it was true?all Jesus said can i help you, i will take responsibilty of your life, and my hand is out for you, just take it...!And you know what? most people still like to do their own thing, and blame every one But themselves? very good information on the sbjct of Judaism.

When I was very young, I knew a Christian girl who thought that God would bless her by marrying a Jew. I knew at the time there was SOMETHING wrong with her thinking and I now wish I could track her down and make her read this book. Given the degree that the "Judaic" mentality has permeated the United States to the point of corrupting everything from our government to our young people via the vile excuses for "entertainment" to which they are ceaselessly subjected, Hoffman provides a

much needed insight into what this belief system (I hesitate to call it "faith") really is. If you read this book you will learn that:- Orthodox Judaism , contrary to the belief of fundamentalists "Christians", has little or no connection with the Bible, Old Testament or new. The Old Testament (Torah) is only understood through the interpretations of the Rabbis and their Talmud which consists of their non-Biblical opinions and legal constructs.-Orthodox Judaism, depending on which Rabbi you listen too either believes that "Gentiles" have inferior Souls or no Souls whatsoever. In other words, they believe they are a superior race, at least as far as the males are concerned.-Some Orthodox Rabbis insist that their Words actually take precedence over God's Will. (Ever wonder what the ultimate blasphemy might be ?)-Orthodox Judaism is deceptive to the Gentile world, making it believe that their beliefs are debated freely and openly and may even pretend to be democratic when in reality any debates occur within a very narrowly defined framework and heretics are always being hunted. Any Christian who reads this should come away with the view that their faith is the Truth and that their relationship to God is a liberating and unique one, not dependent on any such thing as a "Judeo-Christian Tradition". (Hoffman also shows this idea to be a myth.) Hoffman's expose also provides much illumination when viewing the chaos of current world events. If certain people believe they are a superior race and even above the Creator of the Universe, what are they NOT capable of doing? Remember the U.S.S. Liberty ?The Lavon Affair ?Continuing cruelty to the Palestinians ?How about 911 ?
