A little disappointed

Maybe my expectations were too high, but some of the meals are pretty involved, and "Easy Meals" might be a little bit of a misnomer. They're good meals, but not necessarily easy. Also, some of them require a lot of ingredients, so those looking to this book as an "easy and cheap" possible recipes book might be disappointed. If it were advertised differently it might get 4 or 5 stars, but it just wasn't what I expected.

I got this cookbook for my sister. She had never used the Ramen noodles before and I thought it would make a nice gift. I looked through the book before giving it to her so I could be sure she could understand the recipes. It was well written and the recipes were easy. Really liked the book.

Very informative. Loved the little sidebars with Ramen facts. The recipes can be somewhat complex, but most are simple & quick enough. Have enjoyed trying the simpler recipes. I would recommend this book to any Ramen connoisseur.

interesting ideas that I would never have thought of. still working through the book.

Great graduation gift!!!!

It was for my husband and he really liked it!Peggy

Great little cookbook if you love Ramen.
