Customer Reviews

I thought this would be a new book. Instead it reuses images from the original Miss Spider's Tea Party and this book just reiterates the numbers from the original book. My little one loves the the books because of their illustrations. I am returning this book because we have the other ones and this one does not benefit our collection. I do not recommend this version. The original has the numbers in it as well.

My toddler classroom loves this book. In fact, they completely destroyed our last copy because we read it so often. Came in very good condition as stated. So glad to have this copy.

My daughter loves the original version of this book but we had a hardback and I wanted a board book that she could use and not destroy too badly. The pictures are the same but the story is limited to one line per page. Kind of disappointed that it's not the full one. It's Miss Spider's Tea Party Lite.

This book arrived later than expected! But, when it did arrive I realized I had paid \$25 for a used, dirty and frayed book for my granddaughter's first birthday! Very disappointed!

Awesome shortened version of this book. Perfect for little hands. All my kids love it!

All of these books are great. It is a great series that my daughter loved especially during her 1 to 2

year age now even after 2 she still enjoys reading them from time to time have 3 from the collection total.

The illustrations are fantastic, as is the rhyming cadence. My sons memorized this book as toddlers. It is one of my go-to baby gifts for friends and family.
