Customer Reviews

The recipes were developed for the older 600W-700W microwaves so I just play with the percentages on my microwave and the recommended time. My microwave is 1250W so if I bake at 60% or 70% the recipes work. They are good tried and true recipes with step by step how-to directions and pictures. Also menu ideas for special occasions. I am enjoying it. Good buy.

This book is illustrated with pictures of how the dish should look. Easy recipes to prepare. List of ingredients are clear and recipe instructions are easy to understand even for a novice.

microwave cookbook by GOOD HOUSEKEEPING ...best there is!

This book helps a lot when you are not a good cook and need to rely largely on the microwave.

Very helpful. Good photos.

Arrived promptly and in excellent condition. You can cook complete nutritious meals in the microwave. I like having the recipes illustrated so I will have an idea of how the recipe will look.

Well illustrated with some helpful tips and recipes. Looking forward to giving them a try.
