Roger Priddy left school at 16 with just one qualification in art. He went to Berkshire College of Art and Design and trained as an illustrator. His first job in children's books was working with the publisher Peter Usborne, at Usborne Publishing, and then he worked with Peter Kindersley at Dorling Kindersley, where he spent 16 years. Priddy became Creative Director of DK's Children's Division and was Managing Director of the children's mass market publisher Funfax when it was acquired by DK. In 2000, he created Priddy Books with John Sargent at St Martin's Press to create innovative and imaginative titles for children, from first books for babies through early reference titles for older children. Since then, over 30 million copies of Roger's 200 plus books have sold worldwide, with five of his books - My Big Animal, My Big Truck, Happy Baby Words, Happy Baby Colors and Puppy and Friends - each selling over one million copies. He is also the author of Big Board First 100 Words; Big Board Books Colors, ABC, Numbers; and Bright Baby Noisy Monsters. His creativity has been recognized with numerous industry awards. Priddy lives in London with his wife Zena and their four children.

This book is great. My grandson is 3 years old and loves it. He reads it every night. It teaches him the names. I am so glad I got it. I Highly recommend this book if you a dinosaur lover. You won't regret getting this book.

My son is fascinated by all things dinosaur. We have had this book for about 4 months now and it is still a 3-4 time a week read. The pictures are great and the pronunciations are very helpful!

some of the most popular dino's are not included, like t-rex. I am surprised that they used certain dinos for letters e and j. both letters do not make the e or j sound so for a child who is struggling with his alphabet like my son is, thisbook only served to confuse him more.

This book is mainly for parents to read to their kids. There are some hard words and the names of dinosaurs are crazy! I wouldn't recommend it for young kids just because the reading is pretty hard. It does list how to sound-out the dinosaur names underneath. Overall, the pictures were nice and it think it gives a lot of information for dinosaur lovers.

Big sturdy book. Great pictures!My 4 year old grandson looks at it over and over.

My two year old son absolutely loves this book, I would say it's good for many ages though. It's wonderfully illustrated with great facts about all of the dinosaurs!

Great book for a dinosaur lover. My 2 1/2 old grandson knows the names of every dinosaur now!

Colorful, great pictures (add the one missing picture yourself--see review)
