Baby's First Words in Italian is designed for newborns to toddlers up to two years old.

Each package includes: A 60 minute CD of sweet and soothing songs, rhymes, words and

stories A Parents' guide that explains how children learn languages A Lyric sheet so that parents can sing along to the songs on the CD with their children

Bought this CD for my 3 month daughter for Christmas...my husband's family is first generation in America from Italy and so he is fluent in the language...we both wanted to expose our daughter to other languages (and especially Italian because she will be hearing it quite often among my inlaws). Even though I don't speak Italian, I enjoy this CD quite a lot...and my daughter seems to smile and laugh when it's on. The songs are catchy and easy to follow...in the process I'm learning Italian too!!! Of course there are some songs that once you listen to it you can't get it out of your mind (but isn't that typical of many children's songs). The booklet that comes with the CD has great ideas on exposing your child to a language. I had a hard time picking up other languages in middle school

and high school because I missed the window of opportunity to make it easier for me...so I highly recommend this to anyone who wants to expose their child to other languages while they are babies. I might even purchase the other language CDs too...even if our daughter doesn't become fluent in these other languages, I think it's great to expose her to the sounds of the other languages.

My baby and I love this C.D! It has special sections depending on your child's age (0-6 months, 6-12 months etc). As my son is 9 months old, we listen from 0-12 months sections. We have a lot of fun singing along and it even calms him down when he's fussy. The booklet that comes with it has great tips on introducing your child to a foreign language. As neither my husband nor I are Italian but are learning it and want to give our son a basic understanding and ability of the language, the booklet was a great help. It suggests having your child listen to the c.d three times a week. It's fun to have playing in the car on a road trip too! The lyrics guide is nice as it has both the English and Italian translations. I've been able to pick up a few songs and are actually able to sing along pretty well now! Great fun c.d!

Nice CD SET.

The whole CD is in Italian. It is filled with Italian nursery rhymes and songs. I bought this 3 years ago for my son and we still listen to it, he is 5. I used to play it at night before bed, in the morning or while he was playing in his room. The cover book has all of the words in Italian translated into English. It also has the songs separated by age according to how they learn language. I absolutely love this!

This cd is great! The singer has a sweet voice and the cd is very educational, the songs are fun and others soft. Very pleased, I'm going to buy another language.

I was searching for a good Italian CD for a long time, I did not want any translation or explanations in English, just pure Italian songs or rhymes. This CD was the one. My little one (20 month old) enjoys listening to these songs and repeats words from the rhymes all the time.

Thank you.

My husband & I are both teachers, and we found this CD to be of excellent quality. I was truly impressed with the variety of songs & dialogue that are offered on it. It's helping both of us to

improve our Italian as we teach our daughter.
