## Customer Reviews

Learn How to Quickly Solve Difficult HSPT Test Questions Here's a little "secret" about the STS-HSPT: the HSPT is what we in the test preparation field call a "general aptitude" test. While some tests are looking to see what you already know, the purpose of the High School Placement Test (HSPT), offered by the Scholastic Testing Service (STS), is to test your ability to learn. The goal of the STS exam is to use a standardized testing process to create an objective assessment of a test taker's knowledge and skills. In other words, it's more about your ability to learn and process new information than what you know. This is good news for those who are serious about being prepared, because it boils down to a very simple strategy: You can succeed on the HSPT by preparing in depth for the different question types and being able to take difficult questions and break them down into easier parts that you can quickly solve. Repetition and thorough preparation is a process that rewards those who are serious about being prepared, which means that succeeding on the HSPT is within the reach of virtually anyone interested in learning how to handle any question they might face on test day. This is great news! It means that if you've been worried about your upcoming HSPT, you can rest easy IF you have a good strategy for knowing what to study and how to effectively use repetition to your advantage. But it also creates another set of problems. If you tried to memorize every single possible thing you can for the HSPT, the field of possible things to review would be so huge that you could not hope to cover everything in a reasonable time. That's why we created the HSPT Flashcard Study System: we have taken all of the possible topics and reduced them down to the hundreds of concepts you must know and provided an easy-to-use learning method to guarantee success on the HSPT. We wanted this system to be simple, effective, and fast so that you can succeed on your HSPT with a minimum amount of time spent preparing for it. --Here Are Some of the Features of Our HSPT Flashcard Study System Study after study has shown that repetition is the most effective form of learning- and nothing beats flashcards when it comes to making repetitive learning fun and fast Flashcards engage more of your senses in the

learning process- you "compete" with yourself to see if you know the answers to the questions, and the flipping action gets you actively involved in the learning process. Our cards are printed on heavy, bright white 67 lb. cover stock, and are laser printed at 1200 dpi on our industrial printers- these are professional-quality cards that will not smear or wear out with heavy usage. We cover the major content areas on the exam. Our flashcards include an edge that is micro-perforated, which means that you are much less likely to have a painful papercut on your fingers when moving quickly through the cards. Our cards are portable, making it easy for you to grab a few and study while waiting for the bus or the doctor, or anywhere where you have a spare moment that would otherwise be wasted. Our cards are written in an easy to understand, straightforward style - we don't include any more technical jargon than what you need to pass the test. The cards are a generous size- 3.67 x 4.25 inches- they fit perfectly in your hands and they aren't so small that you have to use a magnifying glass to read tiny type- all questions and answers are in a normal-size print for easy studying. Our concept cards include in-depth explanations- you won't see any "one word" answers on our cards that require you to go get a textbook to understand why your answer was wrong- all of our cards include generous, thorough explanations so you not only get it right or wrong- but you also know why! We use a font created by Microsoft to make reading easier- this will enable you to absorb more information painlessly during late night study sessions. Our system enables you to study in small, digestible bits of information- unlike using boring textbooks, flashcards turn learning into a "game" you can play until you've mastered the material. It's easy for a friend to help you study- they don't even have to know anything about the HSPT- if they can read, then they can quiz you with our flashcards! Now, let us explain what the HSPT Flashcard Study System is not. It is not a comprehensive review of your education, as there's no way we could fit that onto a single set of flashcards. Don't get us wrong: we're not saying that repetition will automatically result in a passing HSPT score- you have to have some innate ability as well. However, without exposure to the question types and concepts, you cannot possibly hope to do well on the test. After all, it's hard to do well on test or prepare for it when you don't know what's going to be on it. HSPT Flashcard Study System is a compilation of the hundreds of critical concepts you must understand to pass the HSPT. Nothing more, nothing less. --If you think there's even the smallest chance that these flashcards will help you, you owe it to yourself to try them out. Don't let fear or doubt stand in the way of your opportunity to achieve the test score you need to fulfill your dreams.

From my experience as an educator, I know the best way to eliminate test anxiety is to be prepared. The HSPT Flashcard Study System provides an organized and thorough approach to mastering the

key information and concepts that my granddaughter will face on the test. Also, the system for studying the information and concepts insures that she will store the new learning into her long term memory for immediate retrieval on test day.

We have only had the flashcards for a few days, but so far, they seem very thorough covering all aspects of the HSPT, and I feel strongly that they will have a strong impact on my 13 yr old son's preparation for the HSPT in January.

Great resource. Definitely less intimidating than a thick study guide. The flash cards have been very beneficial for my son in preparation of the exam. Highly recommend this product.

The flash cards are a nice tool to use to study for the exam. You can use the cards to play game to make studying fun for you child. The materials are well organized and provide good sample questions for practicing for the exam.

I like the flashcards because you can focus on any area you struggle with as well just knowing what the area is you are studying for. It also doesn't seem as overwhelming to study a by the domain and sub set.

I purchased HSPT flash card study system. So far it seems like a great straightforward system of study.

Not my type of flashcards. These flashcards, while full of useful information are full of a lot of detail and information, which make it difficult to study as flashcards

Very helpful, so far. We now know what to expect as far as the test goes and we are structuring our study efforts towards that end.
