Basic Principles of American Government Textbook

My kids school doesn't have enough books to go around. There is a classroom set, or you can check them out from the library. So I bought a copy for her. BEST idea ever! It is so much easier when the book belongs to us, she can write notes in it, underline & highlight. I'n thinking about doing this for all of her classes!

Basic Principles presents all you need to know to understand the workings of the U. S. government, American policy and issues related to today. This is an excellent text for high school and introductory college level.

. . .so I'm not sure how I would rate it. He has been able to read through it with no issues, so either it's well formatted or he's just really motivated to get done. My guess is the book is organized in a way that makes it easier to read and understand.

Exact book that I needed and in great quality :D Contacted the seller about information regarding the volume and they were very polite.

Great book and excellent seller.

Good.

bought this to refresh myself....i work the polls

like most people i am always skeptical when it comes to buying things online however, when i got this book it looked brand new to me and they even wrapped it in plastic. i really appreciate these guys they truly amazed me at how well they care for their books. 5 stars
