Customer Reviews

This coloring book is very good quality. It is a great price too. One design per a page on good quality paper. I didn't use gel pens or markers so don't know if it would bleed through or not. Great variety of animals. Would highly recommend to anyone.

This series of color by number is in my top 3 favorites! It was a great variety of pictures in each book. The colors are not hard to match at all as I have had in some other cbn books. The pictures have a lot of nice, pretty details but not so much that you don't even want to attempt to do them.

My favorite coloring book of all times. It reminds me of the paint by numbers that I did as a child. I will definitely be ordering more of these

FANTASTIC BOOK. LOVE ALL THE PICTURES & THIS IS A COLOR BY NUMBER BOOK WITH A COLOR GRAPH.

My mom and niece LOVE this color book! We took this book, along with Color Quest: Extreme Coloring Challenges to Complete, on vacation. It is fun to pass time in the car and in the hotel room when it is hot outside. The pictures are very detailed and take quite a while to complete. So fun to see the end result! I hope to buy more like it!

Bought this for my grandpa to keep him busy and improve his dexterity. He loves it!

This book may have been a little rushed to publication? There is at least one duplicate picture, the tiger on the cover-that same exact picture is in nature book. There also appear to be several pictures missing numbers. You can tell there are 2 "authors" the outline for some of the pictures are quite dark while others are much lighter. Still enjoy the good variety and quantity given for price and will enjoy this book as I have others in the series. Hope if more come out they are more attentive. The number palette has increased also and there are 6 shades of brown to match up, due to the animal theme it makes sense but just an FYI, basic pencil sets won't have that many browns, you may need to buy additional single colors.

I really like this coloring book, but I didn't expect some of the spaces to be so small and there to be so much detail. Since it's my first coloring book I don't have much to compare it to but in the future I think I would like more floral images. The color by numbers really takes the stress out of knowing what colors you should use. Overall I liked it.
