End,Ã Â and Stephanie Pearl-McPhee Casts Off.

This is a delightful, smart, and witty page a day calendar. It's well worth getting even if you are not a knitter (but one of us is!). The only deficiency is that there were no directions on how to set up the plastic backer for the calendar! That's needed so that the calendar can sit on a desktop. The box and backer highlight that the backer is "recyclable", but it's attached with a plastic hinge and looks imminently breakable! It's unclear what one should do or how it will work. (We were used to cardboard ones in which one piece slides through another to make the angle backing.) We didn't want to force it or bend it back and have it break--which would have meant no desktop display. The trick is to go ahead and bend it back slowly and gently and it will, after a bit, snap into place. Whew! Maybe Workman Publishing can add a line to its boxes and its FAQs on the web about this!

The 2009 calendar was given to me as a gift by someone who had never known a time when I wasn't knitting. Well -- I had given it up ten years earlier, having lost all interest in the hobby. Page by page, the wit and charm of the Never Not Knitting calendar wooed me back to what had been my favorite hobby -- I made sweaters for Christmas, and am currently making a replacement Aran for my husband, I who swore I would never knit another Aran again. And I owe it all to the Never Not Knitting calendar. It should go without saying that the Never Not Knitting calendar is now a "must-have" among my stash of knitting accessories. Know this: If you once knew and loved knitting, this calendar will get you back into it. Eventually. "Resistance is futile."

Order arrived in a timely manner and just as described

This is a constant and continual joy which adds to my knowledge of knitting along with her delightful look at herself and the compulsive knitter. This is my second one of these calendars and she does not repeat herself (or has not so far).

this is the second year I have the calendar and I look forward to turning the page every day, I also use the back of the page for note paper! highly recommend this to all knitters

For knitters with a sense of humor, it doesn't get any better than the Yarn Harlot. I always get her page-a-day calendars. Item arrived timely and as advertised.

This is a great gleaning of Stephanie Pearl-McPhee's humor, insight, and advice for knitting and life. Guaranteed to bring you a smile and a few stitches a day.

Thought there would be more knitting stitches. It's not what I wanted but is not a bad calendar.
