Metamorphosis: A Companion Book To The Film

Synopsis

Metamorphosis: A Companion Book to the Film includes essays exploring both the science and artistry of butterflies, how butterflies challenge Darwinian evolution, and how they point toward intelligent design. A companion to the Illustra Media documentary of the same name, this 94-page book includes more than twenty stunning full-color photos (many taken during the production of the film) and is introduced by a special message from best-selling novelist Dean Koontz. Contributing authors include David Klinghoffer, philosopher of biology Paul Nelson, biologist Ann Gauger, historian Michael Flannery, lepidopterist Bernard d'Abrera, and literary expert Jonathan Witt.
