The Alpha Female's Guide To Men And Marriage: How Love Works

Synopsis

As seen on Fox & Friends The Alpha Female's Guide to Men and A A Marriage A A shows women who have a dominating personality how to love a man. America is in love with the alpha female. Sheââ \neg â, ¢s the quintessential modern womanââ \neg â •assertive, razor sharp, and fully in control. Her success in the marketplace is undeniable, a downright boon to society. But what happens when the alpha female gets married? She becomes an alpha wife, of course. An alpha wife is in charge of everything and everyone. She is, guite simply, the Boss. A Â The problem is, no man wants a boss for a wife. That type of relationship may work for a spell, but it will eventually come crashing down. A A Since 1970, just as women became more and more powerful outside the home \tilde{A} ¢ $\hat{a} \neg \hat{a}$ •more alpha \tilde{A} ¢ $\hat{a} \neg \hat{a}$ •the divorce rate has guadrupled. And it is women who lead the charge. Today, 70% of divorce is initiated by wives. Do men just make lousy husbands? Not at that rate, says Suzanne Venker, bestselling author of The War on Men. The truth is that women don \tilde{A} ¢ $\hat{a} \neg \hat{a}_{\mu}$ ¢t know how to be wives. Why would they? That \tilde{A} ¢ $\hat{a} \neg \hat{a}_{\mu}$ ¢s not what they were raised to become. But women can learn. There \tilde{A} \hat{a}_{a} , $\hat{c}s$ an art to loving a man, says Venker, and any woman can master it. An alpha female herself, Venker learned how to be a wife the hard way \tilde{A} ¢ $\hat{a} \neg \hat{a}$ •through trial and error. Lots of error. And here \tilde{A} ¢ $\hat{a} \neg \hat{a}_{,,}$ ¢s what she knows today \hat{A} $\hat{a} - \hat{a}$ -the set of skills a woman needs to pursue a career, or even to raise children, is the exact set of skills that will mess up her marriage for good. No man likes to be told what to do. And no woman respects the man who does. The Alpha Female's Guide to Men andà Marriageà Â gives women who are used to being in charge the tools they need to make their marriages less competitive and more complementary. Part memoir, part advice, this brave manifesto argues that while marriage is more challenging for the alpha female, it is possible to find peace in your marriage. In fact, it may be easier than you think.

Great

I chose this book because something is off or hidden and I don't know what. I can give it a month.

I am recently divorced, my ex said I was an alpha. I am actually not but this book gave me new strategies and thoughts to implement in any new relationship that I begin. Every woman should read this book... alpha or not.

This is a very practical secular guide to a satisfying marriage in a world where women are trained to behave like men.

This should be a requirement reading in high school and college. Wish this book had come out sooner!!

Fantastic book! Practical and wise words for women today. Very applicable and frankly, necessary reading in today's society where our roles have nearly merged.. I know this book will greatly help my marriage as I seek to "rebalance" my marriage and subsequently enjoy the resultant harmony as I step back out of alpha when I get home from work. And to think that we have succeeded in creating successful, strong willed, well intentioned women who become wives. These wives, who by their very learned alpha nature, are inadvertently robbing their husbands of respect and masculinity, thereby resulting in the destruction of their marriages. It was eye opening to me to see the viscous cycle of pitfalls to our marriages when the modern, "strong"/alpha woman attempts, sometimes unknowingly, to take charge within her marriage still in her alpha work role. This is because, you

read you simply can't deny biology for "equality" in the marriage, and the author does an incredibly good job of demonstrating this throughout the book. To deny these "built in" needs of the sexes is to sabotage your marriage. No one tells young women beforehand about this collateral damage they may one day experience or how to prevent it when society is actively telling these same young women they can do and be anything they want. Perhaps all career oriented women should be strongly encouraged to read a book like this before embarking on their chosen career fields. In doing so they can be educated about how to separate their controlling, alpha working women traits from their much needed relationship/marital beta roles when they come home, in order to maintain happy, fulfilling marriages. Thank you!!

As a high alpha with too many unsuccessful relationships I look forward to piloting these principles to use!!! Get the book!

Informative, a must read, recommend.
