## Customer Reviews

"[The book offers] an extraordinary overview of applied ethics topics with all the right articles. Any student can quickly become an expert on a variety of controversial issues by reading this book." "[This book has] a judicious selection of readings revealing a panorama of arguments on a wealth of provocative issues, all interspersed with insightful discussions that encourage students to reach their own conclusions." "This a fine textbook: It contains the classic essays and classic course topics covered in a moral issues course. The text's most impressive points are its case studies and its chapter on Computer Ethics and the Internet."

Julie C. Van Camp is Professor Emerita of Philosophy at California State University, Long Beach, where she taught philosophy of law and applied ethics. Along with a Ph.D. in philosophy from Temple University, she holds a J.D. from Georgetown University. She has been admitted to the State Bar of California and the District of Columbia Bar. She is the author of two other Cengage Learning titles, including **ETHICAL ISSUES IN THE COURTS** and **ETHICS** (4LTR Press). Jeffrey

Olen is the author of PERSONS AND THEIR WORLD, ETHICS IN JOURNALISM, and MORAL FREEDOM, in addition to journal articles on a variety of topics. He has taught at the University of Wisconsin-Stevens Point, Temple University, the University of Colorado-Colorado Springs, and Regis University-Colorado Springs. Vincent Barry is Professor of Philosophy Emeritus at Bakersfield College, having taught there for thirty-four years as well as being a highly successful philosophy textbook author.

Had to get this book for a required class. This book is unreadable. It is written in an outdated language of old philosophers. The book itself is unethical. It starts out with one inch margins then once you get into it they switch to half inch margins. That's deceitful. Everyone I have talked to in the class can't stand the book. I read it because I have to, but I'm not getting anything out of it. Humanity is certainly lacking ethics these days, but this book is a waste of my time and if I'm struggling reading it, I doubt anyone who actually needs to read this book will make it through more than a page.

Paid \$70. for a used book. Had taped out title but didn't question it. When tried to return it was a teacher edition and it was worthless as a text. Total fraud!

Very insightful, and there are a ton of readings that make this book more and more interesting with every coming chapter.

My human conduct & value professor is making us put this book to great use.. Awesome!!!!

The book was excellent

This book came with tape all over the cover. I didn't know this until I tried to resell it but it wasn't the real version, it was some sample copy.

Good

"Applying Ethics: A Text with Readings" is an excellent anthology for introductory college level applied ethics courses. I've taught applied ethics at the college level for nearly 20 years and am familiar with quite a few different applied ethics texts. This is one of the best. Each issue covered

begins with a summary of the issue itself, followed by a brief description of the major arguments on both (or all) sides of the particular issue written by the book's editors. Following this there are four articles (most of them written by philosophers) on each topic. The editors have done a pretty good job in achieving a balance with each of the topics. The discussion of each issue closes with several "case presentations."
