# Defender (Night War Saga Book 2)

## Synopsis

Allie Rydell left her life behind to protect the world from the Goddess of Night. But after weeks of training, hunting, and learning to use the life-giving power that inexplicably chose her, saving Midgard seems more impossible than ever. Nott's followers have eyes across the realms, and they're determined to collect the bounty on Allie's soul. And the closer Allie and her protectors get to the pieces of the immortal weapon that could save them all, the more destruction Nott manages to unleash—not only on the world Allie loves, but on the friends she'd give her life to save. Darkness is coming. And this time, it won't leave any survivors.

## Customer Reviews

This is the second book in the series and it was awesome. You learn more about Nott and her powers and get to see her close up. Allie and Tore are getting better working as a team. This book is full of action from the beginning to the end. There are still parts that make you laugh which helps to lighten things up. There were some very surprising things that happened and I will not give them away, no spoilers from me. The ending leaves you really wanting the next book to hurry up and get published. I cannot wait to see how all of the little mysteries get solved. It did make me go back and

re-read parts of Protector especially the beginning when Allie meets Tore.

This series gets better! From the start there are tons of action and adventures for Allie and her four protectors. Allie becomes stronger and will do anything for her friends. Allie and Tore's relationships has developed since the first story and it's a great to see them grow together. I love the new characters and creatures that have been added. As a reader I enjoyed reading about the different realms they travel to and their experiences there both good and bad. Leia and S. T. have done an amazing job keeping up with the character developments and the storyline. I really look forward to the next book.

Allie and the gang continue on their quest to thwart the evil goddess Nott. Allie and Tore are in a good place in their relationship and others are newly developing. Allie learns a fantastic new trick and being Awesome Allie (as I dubbed her), she makes new Allie's, some quite unexpected! This is a great continuation of an intriguing story! I thought her swooning verbiage was a bit younger than she usually appears but that may just be the effect Tore has on her, and it didn't detract from the enjoyment of the story.

You need this book in your life. I promise you will not be disappointed. Pushing the read now, or buy now will make you a happy Norse lover. These authors never cease to amaze! S.t. Bende and Leia Stone weave another amazing story, sucking you away from reality with each turn of the page. Individually as writers I didn't think they could get better. It's now in the CLOUD I was wrong! They surpass my expectations with each new book. All of the characters while strong, show moments of extreme weakness binding the team to Allie and Allie to the team. Allie's continued search for her weapons pieces which are strewn across the realms will leave you hanging off the end of your chair. The characters in the story are growing individually all the while fusing as a team. Kind of like Allie's weapon which she is trying to find the pieces and rebuild. Allie even gets a taste of the true evil known as the goddess of Night (I call her bag o' bones!) in this book. The electric jolt these authors throw at us in the last chapters make you want to cry/scream/wail for the next book. What will happen with Allie's team and even to Allie? I can't wait to see the next book unfold and amaze me even more. Two thumbs up guys, YOU ROCK!!

Another amazing continuation of Allie's story. This book was action packed with a mix of romance. &

a couple of characters showed up some evil & some good. I got emotional at times when i came across a heartfelt scene or had a moment with Allie when she was nearby someone special. We got to hear a little bit about Tore's past which is very emotional so if you read please bring your tissues :) Still a continuation of finding the pieces of Gud Morder, Allie & her protectors come across many obstacles & one that may change the game at the end of the book. I am so excited for the final book.

Ah-mazing!! Twists and turns and a lot of heart! This second book totally rocked! Welcome back to the Protectors we fell for in book one. They're just as awesome and hardcore as ever! Glad to see more romance and really get to know them a bit better. Allie grows into her powers and makes a few more friends that aren't human. Book three is sure to leave us just as breathless! Beware!! Ends with a massive surprise and a cliffhanger!

This one was NONSTOP ACTION with a bit more flirting mixed in. I can't help it. I love the Norse crews that S.T. thinks up! My primary complaint . . . The constant direct and repetitive innuendos without anything further. Bleck! I say mix it up OR tone it down OR just get on with it! Another high point: Allie is much less girlie and whinny in this one.

I absolutely loved the second installment to this saga! Once again, Leia Stone and ST Bende are an amazing team who make the book seem seamless. It is almost as if they share a brain. I loved seeing what Allie and her crew were up to since the first book. This book has it all. Sexy male protectors, DRAGONS, Asguardian warriors, girl power, an absolutely evil villain whom we learn even more about, action, swoon-worthy moments and more! This book did not disappoint one bit. I can't wait to read it over and over as I agonizingly wait for the third! The cliffhanger ending leaves you wanting more and more while you are at the edge of your seat!
