Africana Studies: A Survey Of Africa And The African Diaspora

Synopsis

The third edition of *Africana Studies: A Survey of Africa and the African Diaspora* is an update of the second edition (1998) and incorporates new chapters that include expanded coverage of issues on women, health, terrorism, the African Union, and many others, as well as the most recent theories and methods in Africana studies. To date, *Africana Studies* remains the most comprehensive and most suitable text for both teachers and students interested in Africa and the Diaspora in the US, the Caribbean, Afro-Latin-America, and elsewhere. The book is divided into five parts: the state of the art of Africana studies; the evolution of the history of black people; analysis of the contributions of the black world; the present and future status of these peoples; and the societies and values of black people. The book also includes a chronology of significant events in the history of peoples of African descent and a number of maps.

"...most comprehensive account of black interdisciplinary subjects to date...summarizes the research of specialists in a variety of fields." -- Insights, on an earlier edition

Mario Azevedo is a professor in the department of Afro-American and African Studies at the University of North Carolina in Charlotte, NC.

I used this for my Intro to Africana Studies class and it was a bit bulky in sections when dividing up the chapters for weekly readings. I'm not sure I'll use it next time I teach this class. I may have to

find another alternative. Unfortunately, I'm not sure what else is out there.

Needed for a class... book was in nice condition

was great for college

great book, perfect for my course

informative

Nice

I paid an OK price for the book, it sold for about the same as my school was selling it for. I ended up purchasing it online because my school bookstore ran out. It was delivered in a timely manner. The description was absolutely correct!!! I'm definitely most happy about that!!! The book was in GREAT condition!!!

Boring book, had to buy it for a required diversity credit in order to graduate from Purdue University. The instructor was a stuck up lady that thought her intro to African American class should be an actual class where students should be graded harshly on grammar and content, instead of teaching the class to inspire young people to blur the lines of diversity. I guess it would have been a good book if the instructor used it correctly. 2 stars for the excellent packaging it arrived in.
