# The Great Zentangle Book: Learn To Tangle With 101 Favorite Patterns

## Synopsis

Create, relax, and inspire one stroke at a time with The Great Zentangle Book! Zentangle(r) is a meditative art in which lines and shapes are created and combined to make one intricate piece of artwork. Compiled by certified Zentangle trainer, Beate Winkler, these 100 step-by-step Zentangle patterns will help you relax while creating approachable and beautiful works of art. Discover beautiful tangles from artists from around the world, including Zentangle founders Maria Thomas and Rick Roberts. Be up to date on current Zentangle trends with new, delicate bijou tiles and find inspiration for your own Zentangle artwork while learning fascinating information and techniques. It's time you gave your mind a creative break with The Great Zentangle Book!

## Customer Reviews

Beate Winkler is by origin German, but spent also some time abroad in the Netherlands, Thailand, on Mallorca and in the U.S., and is now based in Hamburg (Germany). She worked as a trainer and sales person. Ten years ago she decided to get back to her passion and to be a professional crafter.

If I was heading to a deserted island that UPS couldn't reach and I could only take ONE Zentangle book along, this without doubt would be the one!!

This is a great book. Has beautiful, simple steps drawn clearly to make each of over 100 Zentangles, with an index in the back. This is the first book I bought, and is still the best one. Don't

hesitate. But it. You won't be disappointed.

This should be your first book of Tangle! I have shown my Tangle creations to friends and two of them have bought this book. Showing others at a get together soon and I am sure you will see some additional books purchased!

I like this book, but it is for those who have some experience with Zentangle. I bought several beginners books before I bought this one. There are very few official Zentangles, so most of them are variations from CZT artists all over the world. I still like the book because the author discusses which Zentangles are used for fillers, center pieces, all over, and as monotangles. Definitely for the person following up on a beginning book,

Great detailed instructions.

This book contains patterns created by numerous Certified Zentangle Trainers that cannot be found elsewhere. These patterns will inspire everyone to stretch the range of Zentangle artwork to new frontiers. Well done indeed!

Just what I hoped for, a lot of really good step-outs! Not full of empty spaces where "you do it" or artists drawings this time, which annoys me, I'm not paying for that, I want instructions. So this book just has really good How-To-Zentangle instructions.

I'm not remotely artistic but I can follow step by step instructions to make something that looks pretty good. This book has really inspired me and I'm having a blast with it. The author organized the content brilliantly and the contributors did an excellent job. My work week is crazy so I look forward to weekends when I unwind while getting "tangled". I highly recommend this book for everyone who Zentangles. It's a wonderful reference.
