First Aid For The Obstetrics And Gynecology Clerkship, Third Edition (First Aid Series)

Synopsis

The obstetrics and gynecology clerkship survival guide from the publishers of First Aid for the USMLE Step 1 This powerful review for the obstetrics and gynecology clerkship provides medical students taking required rotations with a single, concise, high-yield resource for excelling on the boards and wards. Hundreds of high-yield facts based on the clerkship's core competencies review everything students need to know for the clerkship. Margin notes highlight common exam and "pimp" questions to really help students shine. New to this edition, mini-cases are integrated throughout to give a clinical "face" to disease discussions. Four new chapters cover twinning, cervical dysplasia/HPV vaccine, breast disease, and women's health maintenance. A section of "classifieds" include scholarship and award opportunities. Features High-yield yet comprehensive review of the most essential topics focuses study NEW integrated mini-cases add clinical relevance and prepare students for questions they will see on the exam Includes 4 NEW chapters Exam tips and wards tips help students shine on the shelf exam and impress attendings Written by students who aced the clerkship and based on the clerkship's core competencies Edited and reviewed by ob/gyn faculty Content you need to excel on the clerkship: Section I. Tips for the Ob/Gyn Clerkship; Section II. High-Yield Facts in Obstetrics; Normal Anatomy, Diagnosis of Pregnancy, Physiology of Pregnancy, Antepartum, Intrapartum, Postpartum, Medical Conditions in Pregnancy, Complications of Pregnancy, Infections in Pregnancy, Twins, Abortions and Fetal Demise, Ectopic Pregnancy, Section III. High-Yield Facts in Gynecology; Contraception, Menstruation, Premenstrual Syndrome/Premenstrual Dysphoric Disorder, Infertility, Amenorrhea, Hyperandrogenism, Hyperprolactemia/Galactorrhea, Abnormal Uterine Bleeding, Pelvic Pain, Endometriosis/Adenomyosis, Cervical Dysplasia/HPV Vaccine, Cervical Cancer, Endometrial Cancer, Ovarian Cancer, Vulvar Dysplasia and Cancer, Vulvar Dystrophies, Gestational Trophoblastic Neoplasia, Sexually Transmitted Infections/Vaginitis, Breast Disease, Womensâ™ Health Maintenance, Menopause, Pelvic Relaxation, Urinary Incontinence, Section IV. Classified, Opportunities for Medical Students, Web sites of Interest

Priti P. Schachel, MD, is an attending physician in the Department of Obstetrics and Gynecology at the Methodist Hospital-Houston, Houston, TX.

This is a book most people don't mention as being good for the clerkship/shelf. However I found it extremely useful and fairly comprehensive. I used this + UWorld and scored in the 95th percentile.

Used this as primary source for the Ob/Gyn shelf and made 83 raw after studying for 1.5 weeks. Highly recommended.

FA managed to do really well here. I used this to prep for the 2CK and found it to be an easy read. Covers a broad range of topics in sufficient (i.e., not excessive or long-winded) detail. Would definitely recommend this as an adjunct to an obgyn rotation and for the 2CK.

This edition is a bit outdated for some of the definitions and screening guidelines. Just be aware of some conflicting information in that regard

I used this resource in addition to the ACOG questions online for the OB/Gyn clerkship to score very well on the NBME shelf exam. I highly recommend! It's very detailed and to the point in addition to being a fairly easy read.

This book was the perfect supplement to my OB/GYN clerkship. Conveniently at hand as well due to the Kindle app. Greatly appreciated!

Read this for my end of rotation exam - got an A. Highly recommend!

Fantastic to read early on and during the last week before obgyn shelf- contains a lot of high yield information and will help a lot for the shelf
