The pictures are beautiful and to be honest, what he wrote actually made me cry at one point. For most folks, unless you are indeed renting an RV and traveling this exact route, you might be better served to plan your trip with a book from Fodor's or Moon. Pro: This is a quick read and does touch on the National Parks that bedeck this part of the country; it also provides a historical narrative overlooked in other travel references. Con: Much of this book is memoir and doesn't match the detail of other less expensive resources that cover much more territory. Having just returned from a drive across Northern Arizona and the Grand Canyon (by car, not RV), this book really didn't help with the planning.

Great trip planning book, good for several visits and provides a more realistic perspective of the lay of the land. Helped me to not underestimate my distances for days and stops.

A great book, interesting and insightful, great service and delivery quickly from a reputable provider. Unique in its presentation. Enjoyed the added humor and special sites to search out next opportunity to visit this part of the country later this Fall. Pleased with the packaging and service.

Family of four use this book extensively during our travel throughout the Grand Canyon and Utah. Kids really enjoyed reading the family adventures and were able to map out the trails on their own using this book. Would highly recommend to anyone taking the Grand Circle trip.

It was not what I had expected from the description. Talks a lot about camping in a RV. I was expecting more about the sites to see.

I expected more pictures and not so much text. Maybe maps, wasn't cheap at all. Maybe is personal but I prefer other kind of guides.

A very good family guide to the National Parks in Utah. I am looking forward to using it on our trip out there this fall. There are so many good tips for enjoying the trip!

Great start to a great trip with all sorts of useful info and a connection to RV sites to start to explore options for a great trip to several national parks
