Learning To Teach

Synopsis

This best-selling text provides comprehensive coverage of general teaching methods and models. The most balanced text in its field, *Learning to Teach* strikes a harmony by integrating research-based practices with practical consideration and opportunity for real-world application. The text provides strong coverage of both teacher-centered and student-centered models. By covering all major teaching models plus the leadership of teaching, including planning, classroom management, assessment, motivation, and management of time and space, *Learning to Teach* helps future teachers master both the theory and application of successful teaching.

The recipient of numerous awards, he was selected in 1989 as the outstanding teacher educator in the state of Maryland and in 1990 received the Judith Ruskin Award for outstanding research in education given by the Association for Supervision and Curriculum Development (ASCD). From 1995-97 Professor Arends held the William Allen (Boeing) Endowed Chair Boeing in the School of Education at Seattle University. Currently, he is retired in Portland, Oregon where he pursues favorite projects and continues to write.

Came in perfect shape! I am a student using it and being tested on it, so I don't have much of a say on its use other than it is very easy to understand and super helpful in learning how to be a teacher. I am learning and using the skills that are in this book!

great price

Love the book .. Sadly my classes do not start for a month.

Received the book as described!! I chose to rent it and oh my gosh, IT'S IN GREAT CONDITION!! It's SO informational and it's just what I needed this semester!

good used book.
