Grade Level: Preschool and up

## Customer Reviews

Hans Augusto Rey was born in Hamburg, Germany in 1898. As a child, he spent much of his free time in that city's famous Hagenbeck Zoo drawing animals. After serving in the army during World War I, he studied philology and natural science at the University of Hamburg. He then married Margret Rey and they moved to Montmartre for four years. The manuscript for the first Curious George books was one of the few items the Reys carried with them on their bicycles when they escaped from Paris in 1940. Eventually, they made their way to the United States, and Curious George was published in 1941. Curious George has been published in many languages, including French, German, Japanese, Afrikaans, and Norwegian. Additional Curious George books followed, as well as such other favorites as CECILY G. AND THE NINE MONKEYS and FIND THE

## CONSTELLATIONS.

Cute book that includes a fuzzy bunny, a crinkly kite, a checkered picnic blanket, a bumpy tree, and a bouncy soccer ball to touch. I would have given this 5 stars but wish the touch and feel pages were a little better on some of them. The soccer ball only has one small area that is raised and the picnic blanket doesn't really have a texture at all. I prefer the Curious George at the Zoo touch and feel book to this one, though this one is cute as well.

A great book for any Curious George fans. This one contains all of his city friends, such as Charkie. Although Jumpy Squirrel is also in this and he is usually only with George when he goes to the country. Each page features something for the child to feel. I like to ask my daughter to describe the texture. There are also a lot of bunnies throughout. It is a fun math lesson to count the bunnies. Great for ages 2-3.

My 2 year old is obsessed with George. We have read this book alot. Well made and goes along with the other george books we have!

Well, this book is nicely made but I prefer the older, classical versions.

Excellent for my now 18 mo old son. He loves pointing at various objects that I name. We started with the most obvious ones -- tree, bunny, dog, squirrel. Once we mastered those, we added grass, sky, house, etc -- what's on the background. Now we added colors and counting. Time well spent every evening.

Great Christmas gift for my infant granddaughter!

My son is a "texture" kid and absolutely LOVES this book, as George is his favorite. He looks at it over and over and the different textures are well done and make it a fun if short read, perfect for his age (1)! :-)

cute book, could have been a couple pages longer illustrations are nice and the textured panels are fun but the book is over too quickly, just when the little one is getting into it. i would recommend it but wish they added 2-4 more pages.
