Triumph TR: From Beginning To End

Synopsis

Beginning with the arrival of the company founder from Germany, this book tells the story of the early years, the rescue of the brand name by the Standard Motor Company following the Second World War and the inspired idea to use the Triumph name on a new sports car - the TR. The Triumph TR cars were built on a minimal budget yet would go on to achieve significant success in motor sport and encompass a range of cars that would remain in one form or another for nearly thirty years. Triumph TR - From Beginning to End gives a complete description of all models, competition success, a study of the derivative models, owners' accounts and living with a TR today.

Kevin Warrington was born into a family with deeply established roots in all areas of the motor industry, but chose a different branch of industry for his career. After formal training as an electronics design engineer, Kevin worked in various branches of the computer industry, eventually running a global sales and marketing group for a US-based software developer. Early retirement gave him the ability to fulfill a lifelong dream of writing about and photographing classic machinery. In addition to authoring recent titles on Triumph's TR and 2000 cars, he has been editor of specialist club and an occasional contributor to classic car publications.
