Customer Reviews

Great book, easy to follow and understand, but the book is oddly missing some extremely useful knots you would assume it would have (taut line hitch, jug knot, barrel hitch). Other than that, great book, glad I bought it.

A very well-done book on a basic subject. My grandson aged 11 saw this in a book store and after we bought it spent all weekend practicing knots. My second grandson aged 8 loved it as well and uses his new skills when sailing. As with most DK books the illustrations are superb and the total subject matter well done.

Really very well done. Graphics are indispensable in learning this craft without a boatswain around to teach it. The graphics in this book are great. The cover and page materials are standing up well

to life on the boat.

Love how the book is broken up into sections of where you would commonly use what knot. Easy to read and follow illustrations. Good quality.

EXTREMELY DIAGRAMED WITH EASY TO FOLLOW INSTRUCTIONS. I FOUND SEVERAL KNOTS IN THIS BOOK THAT HAD NOT BEEN IN OTHER BOOKS.

Everyman should own this book - with clear instruction on a variety of knots and their use. There is a corresponding app for mobile devices that I use as well.

This book is very helpful. The illustrations are great, thanks.

Very clearly written with ample illustrations.
