Inside UFOs: True Accounts Of Contact With Extraterrestrials

Synopsis

The aliens have arrived! While most UFO books are re-hashes of old cases, *Inside UFOs* presents the cutting edge of UFO research with ten all new original cases of extensive contact. A wide variety of ETs are presented, including various types of grays, Praying Mantis-type ETs, humanoids and Nordics. The witnesses are normal everyday people who suddenly find themselves in very unusual situations. The unique and unusual nature of the cases in this book will surprise even those well-versed in the UFO literature. A Navy Corpsman is invited aboard a UFO by his shipmate, only to meet fifteen-foot tall friendly Praying Mantis-type ETs. A young child experiences an encounter with Nordic ETs that marks a lifelong series of contacts. A paperboy encounters a UFO and missing time, leaving him with an undiagnosed illness and a mystery that remained unsolved for years. An office-worker is confronted by a nine-foot-tall praying mantis, only to discover that she's also having contact with gray-type ETs too. A teacher stops on the road when a huge metallic sphere drops from the sky, and out steps a handsome-looking spaceman. A new mother is shocked to see an alien right outside her window, staring intently at her newborn son. A desperately ill housewife is transported from her home into an unknown base and cured by an eight-foot-tall orange-haired humanoid. A young farm-boy encounters UFOs on his family's farm, beginning a very close and lifelong relationship with ETs. A Navy Electronics Specialist has a complex UFO encounter aboard a Navy Ship, and is taught by the ETs about alternative energy sources. A nursing assistant experiences a life-long series of missing time incidents culminating in a fully conscious encounter with gray-type ETs who attempt to answer all his questions: Why are the aliens here? What is their agenda on our planet? Are they hostile or benevolent? This book answers these questions and more, directly from the witnesses themselves. This is not just another book about abductions by grays. This collection of true UFO stories shows how fascinating and bizarre extraterrestrial contact can be.

Customer Reviews

I have read books about ufo sightings and contact for years. Most books rehash cases that I am very familiar with. This book was a surprise in that I have never read about any of these cases before. I thoroughly enjoyed it from the start. Especially touched by the story that included the words from the aliens that states God will provide man whatever he needs to succeed. Recommend to new and old readers interested in this subject.

The stories on this book were all very interesting. That made the entire book super engaging to me. Finishing reading it made me want to read more from this author. I'm glad that there were more titles available and I have started reading "Not from here..."

This is an excellent set of personal experiences. This is a difficult topic to try to understand, and these stories reflect a wide range. There is very little "editorializing" in these accounts, just the strange events told in nice clear prose. Well done Preston! Highly recommended.

I think I accidentally wrote my review for the product below -- Rebar Trap Anchor Stakes. Please insert that review in the space for Inside UFOs.thanks,John

Good book - I like the writing style of the author (I have read a few of his other books). The stories are very interesting, even if some seem to be a little "out there". I will let others decide on the veracity of the individual tales of contact but I still found it a good read.

Well it is a very interesting book, I have always been fascinated with ufo's I have seen a few over the years, and I love to read other people's stories and what happened to them.

Enjoyed reading this Preston- thank you for your investigations into these cases.

This book is 10 stories of people who have or claimed to have had alien contact. That is all. Some of the stories don't seem that believable, but some definitely do. I don't know...I'm indifferent on this book. 3 stars
