Knock Me Up, Boss: A Bad Boy Office Romance

Synopsis

She wants a job. He wants an office fling. But what they get is a baby. I'm a billionaire lawyer and I can have anything I want. Except I can't have my secretary. That's what my new law partners say, But I've never been one to follow rules. I'm going to claim Carolina's curves as my own, and we'll keep our relationship secret so it won't mess up anything at work. But when I find out she's carrying my child, I'll do anything to protect them both, no matter the personal cost. What will it take to keep everything I've always wanted—plus something I never even knew I did?

Customer Reviews

Okay, this is the third book in this series that I attempted to read. The first book about Asher and Madilyn and while the story was basically absurd I was able to get the book. However, the second book with Ron and Ruby was just too much I couldn't get about the first few chapters. Something about a lawyer in his 40's and a 20-year-old with purple hair just seemed stupid. For some reason beyond me, I decided to try this book with I think is actually the fourth book. I thought I would try again. That was a mistake. Garrett did not have one intelligent line in the few chapters I was actually able to read. I read a few chapters, in the beginning, a few more in the middle, then the last few

chapters. They all pretty much sucked. I don't think Garrett said one thing that didn't involve sounding like a horny teenage boy. The whole series revolved around a law office but seriously not one of them acted like they had a clue about the law.

Carolina is in need of a job and she would like to be able to move out of the town she grew up in. She is getting a divorce from her husband who was her high school boyfriend. They had been trying to have a baby for a while and they found out that it will be very hard to get her pregnant due to some medical issues on her end. Her husband just up and leaves her and files for divorce without even trying to talk to her. Carolina gets hired by Garrett, who is a new partner at the law firm he recently started working at. Garrett has been warned by the other partners to not mix business with pleasure because he has a reputation for that and they don't want any problems. Garrett hires Carolina without an interview and mostly because she was beautiful and he figures since she has basically no work experience he can train her the way he wants. His partners aren't happy but they allow Carolina to start working and things are going well for the first couple of weeks. There is major sexual tension between the two but they refrain from having any kind of relationship even just sexual. Finally Garrett ends up initiating sexual contact with her one evening and they end up having oral sex. The coming Monday Garrett is avoiding her so she thinks he is done with her. A little time goes by and Garrett can't control himself again and they end up having sex. Then they do it again for an entire evening and morning. Then Garrett is back to pretending like nothing happened. This goes on for a few weeks and Carolina can't take it anymore and decides to just resign because she is feeling horrible about the whole thing. Garrett decides it's probably best she left and helps her get a new job at a different law firm. They don't talk or see each other for weeks and then Carolina starts feeling sick. She takes a few days off and then decides to go to the doctor because she's not getting better. She finds out she's pregnant and doesn't know if she should tell Garrett or not because she's afraid he won't be happy. Grab this great book and see how Garrett finds out she's pregnant and what he does when he finds out. Definitely a must read.

Reading is always a fun way to escape for awhile, where reality can be suspended, and imagination given free reign. Knowing this I still had to shake my head at the antics in this book. The latest entry in the series about philandering playboy lawyers is Knock Me Up Boss. Garrett Mack has become the newest member at a powerhouse law firm. He loves to fraternize with the women he works with. Though given stern warnings about inappropriate behavior he can't help himself. When he sees Carolina Abbott's resume, he's ready to hire her based on her looks. Carolina Abbott is trying to

regroup starting her life over with a new job, in a new city. Her former husband left her high and dry, when he learned she couldn't have children. Carolina was likeable, but Garrett never really my cup of tea in this book. I like Juliana Connors work, but this one just was okay. Still looking forward to her next story! read an ARC of this book

Carolina needs to find a job after Jake left her. She applied for several jobs and finally gets a call from Garrett. He is a new partner at a prestigious law firm. Carolina leaves her home in South Carolina and moved to Albuquerque. She is Garrett's legal Secretary. They feel a pull with each other but try to fight it. Garrett had signed a contract not to have any sexual encounters with his employees and he went behind his partners to hire Carolina. Their attraction for each other led to sexual encounters. Carolina doesn't want Garrett to get into trouble so she quits. Garrett misses her so much. Will Garrett go after Carolina? Will Carolina tell Garrett her secret? A fantastic book. I don't know why people are giving bad reviews for this book because I think Juliana Connors did an excellent job like she always does. I loved it! I received an ARC and am voluntarily leaving my honest review.

This series just keeps getting better. I loved Asher, Carron, and Daimen. Now we have Garrett. He is one hot as heck lawyer and he has a little tendency to sleep with his assistants. Carolina has to find a job after her husband leaves her because she can't get pregnant. Now she is his assistant and they are having a very good time. This book is amazing and the story is full of great moments. Just one click it, i did and its so worth it. I recieved this book as an arc and i am giving my honest review voluntarily

What a delightful read! More shenanigans at the law firm...you just have to love those high powered lawyers and their executive assistants/interns. It's a great storyline, with fully developed characters and cameos from some of our favorite characters from previous books. There's high emotion, coupled with doubt and fear, plus a delightful HEA--even if the journey to get there was so painful. I think you're going to love this one, too. (I voluntarily reviewed an advance reader copy of this book and loved it!)
