Private: Gold (Bookshots)

Synopsis

Money. Betrayal. Murder. That's a Private conversation. Hired to protect a visiting American woman, Private Johannesburg's Joey Montague is hoping for a routine job looking after a nervous tourist. After the apparent suicide of his business partner, he can't handle much more. But this case is not what it seems--and neither is his partner's death. >i>i>

Customer Reviews

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

I am not sure what James Patterson is thinking with Bookshots. Some of them are good and some, like this one, are absolutely terrible. I am not sure why it is called Private. The Storyline does not fit any other Private line. Private Office in SA can not stay open as no money - but all the other Private Offices have tons of money and the newest tech, etc. It has nothing to do anybody from private, the story has many holes, the ending is horrible, etc. If you are expecting a normal Private Story stay far away from this book... Personally I am giving up on Bookshots. I actually like the idea of good, short reads, but i wonder if James Patterson has even looked at these. He just gives them to

no name writers and in that destroys the brands that he built up and also his reputation just so he can make some fast cash.... Bad decision in my opinion

Really used to enjoy the Private Series but this book is not written in the style I am accustomed to for a novel by James Patterson. Of late, James Patterson, whose novels I really used to enjoy reading, has so many co-authors that I don't know what to expect when I see a book with his name on it.

It wasn't a bad read at all. But it wasn't Private. It was a good, short action mystery without a single element of Private and Jack Morgan no more than one abstract mention. Even the setup was counter-Private: a partnership of two men in South Africa.

I have read all of the Private series books and did not realize when I ordered this that it was one of the "Bookshot" books which can supposedly be read quickly. Quickly is an understatement. It has nothing at all to do with the Private series of novels except for one telephone call to Jack Morgan. I can see where this could have been a good novel if fully developed, but it is one-dimensional and it seems that at the end someone had a deadline to meet and basically just made up a very short ending. Disappointed. Will be more careful in the future about ordering something classified as a "Bookshot."

Two forces come together out of necessity, an American named Isobela is trying to help her husband's business losses when she enlists Joey from Private investigations to provide security once she hits Johannesburg. Little do they know trouble is not far behind. Well written and enjoyable read.

The book gives clarity to the harsh environment in which gold miners work. The reality of gold attracting bad people and creating a fertile ground for corruption reminds us to not be too trusting when high stakes are about. The book makes you cheer the good guys and gals on!

just was not up to the usual standards, very light plot lines and very predictable. Just not that entertaining

I was disappointed that Alex didn't have much of a roll in this book. I miss his stories.. is his wife taking the lead now?' oh well, I still enjoyed the book and will continue to read his book...
