Gar Wood Boats: Power Classics Of A Golden Era

Synopsis

This is more than the story of the person and the company he founded in 1930-it is a photohistory of the magnificent boats themselves, and the extraordinary design, craftsmanship, and materials that made them legendary. Special attention is given to the Baby Gar, as well as runabouts, speedsters, utilities, and express cruisers-all built in Wood's Michigan boatworks.

Book Information

Hardcover: 128 pages

Customer Reviews

Anthony S. Mollica, Jr. is a boat historian and founder of the Gar Wood Society.

Just the book I hoped it would be as an aspiring Gar Wood boat buyer. Full of useful historic information and photos. I have a very small personal connection to Gar Wood from some 60 years ago. And now I have a surveyor looking at one of his 1936 boats for me. Time will tell if I become an owner or not, but the book chronicles the various stages or eras of the boat business. Very informative in a non technical manner. I am more than happy with the author's diligent research. A great buy.

Another great book discussing vintage wooden boats.

Good book, but had to look elsewhere for additional information, but it did a nice job.

This is a good resource book for people interested in classic wooden boats, especially Gar Wood boats.

Thanks

Excellent book, received quickly! Thank you!

Excellent history of Gar Wood commercial boat production. Sadly, nothing is said of his relationship with Harry Miller, Miller engines, or much, for that matter, of Wood's boat racing.

A Wonderful Portrayal of Classic Wooden Boating A one of a kind historic journey with Gar Wood, one of the pioneers of motorized wooden boating. The author's insight and knowledge of the subject is quite evident in page after page of the book. The pictures and illustrations are exquisite and beautiful to look at. This is a must read for anyone who loves classic boating, boating in general and American history, as you are taken on an epic journey with one of America's leading industrialists of a Golden Era. My kudos to the author for a job well done and express my hope that boaters across the nation will add this tome to their maritime libraries!!!
