The Egyptian Book Of The Dead [Illustrated]

Synopsis

This Seedbox Classics edition of The Egyptian Book of the Dead includes illustrations. The Egyptian Book of the Dead is a full sequence of prayers, songs, and incantations that are employed at funerals, and by the individual in his journey beyond the tomb. The Egyptians have always been impressed by the reality of human mortality, and much of their religious faith and sacred ritual is taken up with the rites of burial, and detailed set of guidelines as to the experience of the soul after leaving the body. The Egyptian Book of the Dead is fascinating because it teaches how clearly and rigidly the solemn and particular Egyptian stated his views and held his convictions concerning the afterlife.

This book really helped me understand Egyptian religion and explains different aspects of the history and contexts of the book throughout the different dynasties. It also has explanations of the main concepts of their beliefs. This is a great book for beginners. I love this book!

AS EXPECTED

Book is exactly what it says it is.

This is the bases of Judeo Christianity

Excellent illustrations ! The artwork and details through the book are amazing. This was a good read , and quick reference. I did not find the book to be informal as expected.

Given that this book is a mid-19th-Century collection of translations, and not really a "light" read, I still found it to be rather informative. It provided me with some insight into the period Egyptian burial rituals and their system of deities. I enjoy reading about mythologies and ancient religions, so this work fit right in. I would recommend it only for those who have the same interests.
