Impressive! This is a very concise and straight to the point book on drawing anime characters for beginners. Shows you everything from each body part to clothes and even how to convey movement. If you are looking to learn to draw manga characters this book is a great place to start. So much worth recommending to all!

I like it so much especially that my brother got to read this one and learned a lot of strokes to use and techniques to be able to draw a good anime character. I haven't found a good book as this one and very comprehensible.

I bought this book as a gift for a family member and he loved it! He's been into anime for years and never thought about drawing anime. After learning the skill, and he is continuing to learn, he enjoyed the book for giving him a new skill.

I have been passionate about anime for a while now, but I have never actually tried this style of drawing. Thanks to Li Shen I learned how to do this in a very easy way. If you would like to learn or are just curious about the graphic novels world, then I highly recommend this book!

I've always had a love for anime but never had thought about drawing it. This book makes it super easy to draw the characters regardless of your artistic skills. I liked that the book went into detail about the history of anime too. Anyone can be an anime artist with this book!! I am going to share this with my niece as she enjoys anime too!

Daughter loves it

This product let me down. It was a small 15 page book about how to draw 4 characters. And for

anime male, there was only one picture for it and it claimed to be "anime prince" but it was actually Edward Elrick from the Fullmetal Alchemist trilogy. DO NOT BUY
