Burned: A Romantic Suspense Novel

Synopsis

Heart-pounding suspense meets tender, clean romance in this fast-paced novel by Bestselling authors Jennifer Youngblood and Sandra Poole. Trust no one ... love kills ... Sydney Lassiter has the perfect life—glamour, wealth, and all the high-society status to go with it. But something is telling her that she needs to return to the sleepy little town of Stoney Creek, Alabama where she grew up. She hasn't been there since her father was killed in a boating accident—or was he murdered? She takes a job as a safety consultant at the local sawmill—the same place where her father worked—and sets out to discover the truth about his death. In Stoney Creek, you don't ask the kinds of questions Sydney is asking. There are too many secrets—secrets that someone will do anything to keep hidden. Sydney becomes involved with two very different men—Kendall Fletcher, the celebrated football coach she's adored since youth and Sean O'Conner, her hard-nosed boss. Both men seem to have some connection to the death of her father. The closer Sydney gets to the truth, the more it seems that her quest could destroy not only her but the people and town she has come to love.

“Poignant, suspenseful, and romantic. Beautifully written and filled with unexpected twists and turns. A sleek romantic thriller.”
—Deborah Smith, New York Times Bestselling Author of

Customer Reviews

Grief is something we all have to deal with sometime in our lives, whether it be as a sixteen year old who has lost her mom to cancer and then be horribly disfigured by a boat explosion that took the life of her father. Life has a way of making us come to terms with the ugliness that surrounds each of us. Although this book was a lesson in how not to find a murderer it was well written. I look forward to reading other books by this author.

My feelings are mixed. The positives: I was interested in the story line, enough to keep reading long after I had figured out the entire solution to the complex mystery. The negatives: it was so obvious what was going on and she was way too dense to pick up on things. She stuck with an idiot of a boyfriend long after it was obvious what a jerk he was. I also was disappointed that it seemed aimed at a Christian audiences when I figured out partway through that they were coming from a Mormon view point, with all that talk of herbal tea and the church comments & timing mentioned by another reviewer, etc. It then made sense why the "Christianity" part of it seemed so very watered down. I finished it anyway and then Googled the authors and find one word for LDS (Mormon) publications.

Good book , it was exciting and I did not know who was the villain, who was the good guys. I also loved the scriptures that was used at the beginning of each chapter. Thanks

A nice, well written book that is worth buying and reading. I highly recommend this good, clean book to all.

It keep me guessing the whole time. Loved the characters. Didn't want to quit reading . Love this author .

O read this book and false identity. They are two of my all time favorite books!

A nice well rounded thriller that kept you guessing

From the first page on a mystery. Not easily figured out. Did not know who the bad guys were until the end. Long book but a fast read because it catches you and you can't put it down
