This book is great for the beginner. It has lots of good how to instructions for basic looks. It doesn't have a lot of "club" looks so if that's what you're looking for this is not for you. It is however a great book to give a teen or anyone else that needs some basic lessons on skin care, make up and tools, and how not to look like a drag queen. This book also has a section for people who want to become professionals. It has good starter set up tips and references.

Great for beginners like myself. Learn different techniques for applying makeup

It's very informative and instructive in the art of makeup application.

The book taught me why prepping your skin is so important and whatever you put into your body is as important. It covers the very basics, beginner essentials for sure. My favourite chapters would be 'Skin' and 'Face'. The chapter on 'Eyes' was too basic for me, and didnt cover the various eye types, which was a minus point. Overall, it's definetly a book that you can refer to.

I learnt a lot from this instructional manual and recommend it to anyone wanting to learn or just to improve on their skills.

This was a very helpful book in many ways -- I got lots of insight on different techniques for skincare and makeup. It was definitely focused on Asian eyes (seems to be one of Bobbi's specialties) but I think that I still gleaned plenty of tips and tricks for great, simple makeup application. As someone who enjoys makeup but is not experienced, this was a great resource!

I really like this book because it breaks things down for people like me who are terrible at make up. She tells you exactly what you need in your home, on the go, and going out at night kits and then how to use all of it. I love that is pretty enough to leave out even after you are finished reading it, even the paperback version that I bought is nice enough to be a coffee table book.

Just arrived. Looks AWESOME. Think will be so helpful. Thanks so much
