The supposed authority on foreign travel; but current 2013 edition is already out-of-date. We visited Barcelona in April and many of the restaurants listed were either out of business or had moved locations,,,creating some hectic last-minute dinner plans. One night we ventured over to a 4-star recommended eatery, only to find the place shuttered behind a metal gate. The hotel listings are much more precise. Perhaps Barcelona has a very dynamic, active and ever-changing restaurant scene. We also wrote Fodor's pointing out our concerns.

Using a combination of travel videos, this wonder guidebook and great map, I am having a ball pre p a ring f o r my upcoming trip. Sooo helpful on locations of freshly prepared tapas as opposed to microwave. I can see exactly where my hotel is, where the train station is, distance from one site to another. A wonderful tool.

This book was was very helpful during my visit to Spain. It is packed with useful information about restaurants and hotels that came in handy as I planned my trip. It became a trusted resource - until I misplaced it while walking in Besalu and never saw it again. I actually looked for a replacement while I was there, but didn't find anything that I liked as much as my Fodor's guide.

Own a couple of Fodor's travel guides and after doing some online research, decided to buy the Barcelona guide. Not sure I would want to carry it around with me (too heavy), but I have been trying to read as much as I can before I leave for my trip. Very informative guide, you will not be disappointed.

This had all the needed information for my trip to Spain! The binding holds up as well. This book is dense so I would recommend a quick glance before you take it with you on a trip.

I spent a week in Barcelona and this book was a great help. Especially the short tours, though sometimes the instructions were not quite accurate leading me to discover evermore fascinating nooks and crannies of the old town.

Good guidebook as guidebooks go. They are in some ways obsolete these days with Yelp and Tripadvisor much more current, but still a good background and history of Barca and surrounding area.

Only marginally useful. Not as much information in the book as I had hoped. There is a great deal to see and do in Barcelona, but this book does not have enough detail.
