## Synopsis

Rerelease of #1 Best Selling Age and Medical Play Book- Dr. Daddy Dom! Be prepared to laugh | Number 1 best-selling author and BDSM and age-play lifestyler Breanna Hayse is at it again with a new, exciting and hysterical adventure of Little May and the Marshall boys, brothers Layton and Caine. It's been one year since the trio became a family, and each member of the household is still finding his and her unique place in this unusual marriage. If you enjoy reading (or fantasizing) about realistic age-play, disciplinary and sensual spanking, menage and medical play, then this story is for you! Dr. Caine Marshall is exhausted; there just isn't enough of him to go around nowadays. To top it off, an old friend, Ian Channing, arrives on the scene and asks for help. Not only is Ian's marriage failing, but his wife's father is causing problems | not content with keeping Savannah's inheritance tied up, the man keeps trying to terrorize her, driving her to take refuge ever deeper into the bottle. Desperate to try anything to get away from his father-in-law, help cure his wife of her alcoholism, and rekindle their relationship, Ian agrees with Caine's suggestion to take up residence with his wife, Savannah, at the unique community of Little Lake Bridgeport. It is here where the Marshalls and some new friends introduce the couple to the age-play dynamic and teach Ian the art of domestic and anal discipline, whereas Savannah discovers the joys of being a Little and the freedom which can be found in submission. Caine is now torn between the responsibilities of work, helping the couple, and satisfying his Little May's ever present demands for attention and her Big girl's never satisfied hunger for pleasure. To top it all off, his usually serious attorney brother suddenly switches roles; from Counselor Cranky Pants to May's playful companion. Layton has taken to pulling pranks and joining up with May to cause mischief and, with that, more laughter and trouble than poor Caine is prepared for. May, of course, is up to her usual business. She brings Ian and Savannah into her world of Teenage Mutant Ninja Turtles and Legos and, with the help of Owie Bear, teaches Savannah that being an adult doesn't have to mean emotional pain all the time. Discovering that they share a similar history of parental abuse and neglect, the girls form a close bond, and learn that there are more valuable things in life to enjoy than either could ever have hoped for starting with friendship; with just a tad of fun-filled naughtiness. Just when Ian and Savannah think that they've overcome their issues, however, a tragic secret catches up with them one which affects not only them, but also May; threatening to shatter her world | Be prepared for several surprises, a ton of laughter, lots of bare bottom spankings, and some of the steamiest scenes ever written in the history of the medical and age-play genres as you join the continuing unique and erotic adventure of those who live and love in Little Lake Bridgeport, by the queen of erotica who brought

contemporary age-play genre to life; Breanna Hayse.

## Customer Reviews

What a wonderful second book in the Little Lake Bridgeport series, seeing how well May, Layton, and Caine Marshall are doing in their unique lifestyle. We meet new people, new situations, and some surprises too. I can't wait to see where this series takes us next. When trouble comes calling, these dominant men prove their protection to not only their little girl but for a friend too. May is thriving in her poly relationship and the witty banter between these three is entertaining. When friend Ian's wife Savannah is almost killed in an auto accident, Caine is at the hospital and offers assistance, and Layton steps in with legal assistance. May is a sweetheart and helps Savannah with not only physical but emotional support. The plot kept me captivated and the pages turning as we revisit the Marshalls and meet the Channings. Both May and Savannah can sympathize with each other for the physical and emotional abuse they suffered as children under a cruel father. The dialog is open, honest and even at times painfully raw with the girls sharing stories. This story is explicit with language, sexual scenes that include age-play, anal-play, medical-play,

mÃ©nage Ã trios, and spankings.

This is a continuation of Little May and her two husband/daddies. We get to see their relationship blossom with discipline and a great deal of love. Caine, Dr. Daddy Dom, sets out to help his and Layton's childhood friend, Ian, reclaim his love with his wife. On the brink of divorce, Ian is willing to try anything to bring his wife, Savannah, back from her self-destructive activities. While fighting at every turn, Team Marshall pull together to show the couple that love and discipline have a power like none other. Layton, Counselor Cranky Pants, uses his skill as an attorney to assure that the girls' father is never able to hurt them again. Very well done!

I really enjoyed this book. The characters were fun and believable. They all had slightly different interests and this book showed how they could all work together. I really hope there will be another story about n the series

Boring; been there, done that. Premise of the book or start of a chapter suggested how the story would go, and it sounded like fun, or at least interesting. As the story progressed, neither happened. The characters never really developed some much as they repeated who they were in slightly different situations. Obviously, the story did not work for me.

Love the book ,bad guy gets put away ,finds a sister & helps put a marriage back together. Can't wait for a book #3 if & when!

I was so excited to see a new installment in May's story and this one didn't disappoint me at all. Not only do we get to visit with May and her Dom and Daddy but we also get to meet a new couple. Savannah and Ian are in a place about as bad as it can get. Layton and Caine go out on a limb to try and help this couple. There is so much love between these people. There are some rather dramatic surprises that took me by surprise and it was wonderful to see how everyone copes with new information. I really hope we will be seeing more of this great community and Carlton sure needs a little of his own.

I love this author and her books. I loved the first book in this series. May's story is great. The dynamics keep changing and getting better as Caine, Layton and May settle into Theron unique married life. Then enters Ian and Savannah. Again what a great dynamic couple. I could see the

ending and I loved the surprise, but I don't want to spoil it for other readers. I hope we get another book about Carlton and get to see May and Savannah get into more trouble.

This was an exciting sequel. I loved the first one and always enjoying returning to see how life is treating the characters.
