Customer Reviews

It's a list of 500 prompts. No pictures or tips or anything. Good if you are stuck and need a push to

sketch something.

Our son loves to read. And he will read anything. He is in 1st grade, but is reading at a higher level. If you give him a book, he is happy and content to just sit in his room and read the whole book. And he just doesn't read his books once. He reads them over and over. He had a fun time reading this book. There is so much information in the book that he is now asking for more. He loves reading the facts and information first, then going back to look at all the pictures. Once he starts reading, he just wants to keep reading. The information and pictures are very accurate and detailed that he can sit for hours just looking at the pictures and noticing different things each time. I look forward to more books from the author so that I can get them for him. I received this e-book at a discount to read and give an honest review. My 7 year old son and I like to read all kinds of books. Physical and e-books. If my son likes the book, then I ask him what he liked about it. He will always tell me what he didn't like about the book. Some books he mostly reads without looking at the pictures but if the pictures can keep his attention, he will spend a lot of time looking at them. He is very easily distracted, and if the book doesn't interest him, then I know that he doesn't like the book. We try to give a complete and 100% accurate review of the books we read. All of the information is based on our opinion alone. We don't look at what other people say because everyone has their own opinion. If you find our reviews helpful, click Yes. If you find something wrong, please let us know so that we can correct our review. I hope our review was helpful with making your choice easier.
