Handbook For Hospital Billing, With Answer Key, Print Edition: A Reference And Training Tool For The UB-04 Manual

Synopsis

Provides critical UB-04 training and serves as a reference for coders, billers, auditors, and accounting staff who have the responsibility for preparing and reviewing accurate documents for claims submission. The Handbook can reduce revenue loss and speed up claims processing to payers by increasing the level of knowledge between coders, billers and everyone else involved in the revenue cycle. It teaches individuals how to complete a facility UB-04 billing form, and contains vignettes that explain the billing office process, its components and reporting nuances. Readers who follow the identified steps can significantly reduce the data rework on print and electronic form submissions and increase the speed and acceptance of claims. Hospitals and other care providers can maximize claim processing performance and revenue recovery and improve their revenue cycle.
