10 Things I Can Do To Help My World

Synopsis

Even young children are eager to help the environment – and here is a bright, inviting novelty book that offers simple ways to make a difference. Do you remember to turn off the tap while you brush your teeth? How about using both sides of the paper when writing and drawing? Or planting seeds and nurturing the new plants as they grow? Bold, child-friendly illustrations and die-cut pages will draw even the youngest listeners to this gentle reminder of the easy, everyday ways we can be kinder to the earth.

Customer Reviews

Parents be warned: If you buy this book for your children, you too will have to help save the world, because they will be on a mission! * American Scientist.com * A thoroughly successful presentation on how even small changes in lifestyle can make a big difference. * School Library Journal * Featured/recommended * Flint Journal * A great example of how even young readers can be educated as they are entertained. * Scripps Howard * Not just a pretty book, this one puts its reputation on the line by being made of 100% post consumer waste material, saving tons of trees, green house gases and energy. Hats off to Candlewick Press for another winner. * Gifted and Talented Books blog * featured/recommended * Charlotte Parent * featured/recommended *

Pittsburgh Parent * --This text refers to an out of print or unavailable edition of this title.

Melanie Walsh is the author-illustrator of the board book BIG AND LITTLE as well as many other books for young children. She lives in Bath, England.

As part of an Earth Day theme, I got this book for my preschoolers. The illustrations are bright and engaging and the 10 things are easy for the kids to understand and do. It makes them start a conversation about what they can do to help their world.

My opinion doesn't count, the grandkids love this book.

One of the simplest and best books to read about recycling. The children at the museum LOVE this book. The book is even printed on recycled paper. A fact from the book: leave the water running during tooth brushing and you have wasted 18 glasses of water!

excellent for girl scout Daisy troop[

My students really enjoyed this book! It's perfect for Earth Day!

Uuummm, am I the only one that received this in Chinese? Interesting, hopefully I can get a new copy before Christmas for my niece.

Nice for earth week, or really any time of the year.

Good for increasing general awareness in children. Children these days waste so much; I hope some parents can learn from this book too. Highly recommended.
