ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including the first commercially available travel map of South America. --This text refers to an out of print or unavailable edition of this title.

Unfortunately, I cannot recommend this map. The transliteration of names into English is not too good, on occasion to the point where you cannot recognize them sometimes, and names in the original scripts are not included. Further, some towns and villages are shown on the map that don't seem to exist, while existing ones are excluded - maybe this is due to outdatedness as others have mentioned. In total, I found the small maps within the Lonely Planet's Georgia Armenia & Azerbaijan (Multi Country Guide) a lot more helpful than this map. Note that this map shows large parts of Georgia, but the best maps for Georgia at various scales are available from Geoland (in Tbilisi and online: geoland.ge).

This's a detailed map and enough for my academic research.

Great map, but had I known it would also include 95% of Georgia, I would've saved money and just bought a map of the entire Caucasus region. That being said, I only use this map to reference Azerbaijan, as I have a slightly larger map of Armenia on another map. I was expecting Armenia to take up the whole page, but they covered most of that side of the map with Georgia. Text is a bit cluttered, and there is also some overlapping. I'm taking a mapping class, and that would NEVER pass. I expected better from a professional mapping company. Also doesn't show the mud volcanoes. Index maps of Baku and Yerevan are decent.

Armenia map is totally outdated. Local People burst out laughing when they saw my map cause a lot of places are called the way they were "called about 100 years ago". roads in reality are quite different from roads in this map.

I used the map on a trip and it came in very handy. It clearly showed all the road in large scale. All the information is very current. Have a lot of inset and useful index. I and my husband very love this map.
