Emergency Medicine Recall

Synopsis

Emergency Medicine Recall is an important addition to the successful RECALL series, which uses a double-column, rapid-fire, question and answer format to help medical students, residents, nurse practitioners, physician assistants and other healthcare professionals to recall important information presented on wards. This information also is critical for USMLE test preparation. The text contains many patient management questions that are written in the emergency room setting, thus preparing students for questions that address EM-specific issues.

Customer Reviews

Found this book to be very helpful during my ER rotation in PA school. Its organized clearly and the question answer format is invaluable, I love it. Its a nice smaller size, which is nice to have in any health care setting.

Love

Not even 7 pages into the text, an error on what Murphy's Sign suggests on PE. Such carelessness causes one to question subsequent material in the text. Proof-read before you publish!!! Shame on you LWW.

This book may not be as unique as others in the "Recall" series but is still worth getting. If you have Surgical or Medicine Recall", many facts in this book are repetitions. But there is no point buying a huge comprehensive text if you're not going to read it. With this concise book that highlights what is most important, I have learnt more than many of my larger texts. It is very enjoyable to read and there is no need to scribble your own summaries.

I am currently doing my ER rotation as a PA student and I am finding this book to be very helpful. It is a great book that focuses on specific need to know areas and they have great questions that the ER physicians like to pimp you on. It is a great book if you already have some foundational knowledge and just need to be reminded of some key facts.

Wonderful book for ER rotation as well as for brushing up on emergency skills for Primary Care. Condensed, high-yield reading. Covers lots of what your preceptors will pimp you on, as well as what will be on your boards.
