23 Disney Classic Stories

I absolutely adore this book! I bought it to read to my son at bedtime and when it came I was so excited to share these classics with my son. When I started reading Pinocchio he had all of these questions about the story and it made my heart smile that he was so interested in the story. We read books every night before bed and i'm really happy we found this collection of stories to add to the mix. so many stories from when I was young and now i can share them with my own son. so far we have read Pinocchio, the Lion King and Bambi. He loved all of them and wanted to stay up later and read more stories! I love that he loved it as much as I do. I'm looking forward to sharing more classics with him at bedtime today. I highly recommend this book for anyone with children, girls or boys. it has a great mix of stories for the whole family.

We were going to buy individual books when we noticed this book. What an amazing collection of

Disney stories! Twenty-three stories, from classics to more recent Disney tales, include: Snow White and the Seven Dwarves, Pinocchio, Bambi, Cinderella, Alice in Wonderland, Peter Pan, Lady and the Tramp, 101 Dalmatians, Jungle Book, Aristocats, Mickey's Christmas Carol, Oliver & Company, The Prince and the Pauper, Little Mermaid, Beauty and the Beast, Aladdin, Lion King, Pocahontas, Hunchback of Notre Dame, Hercules, Mickey and the Beanstalk, and Three Little Pigs. Each story is about fourteen pages long, with great pictures from the movies on each page. The book is about 9 inches square, so a bit unwieldy for a child to read sitting, but quite enjoyable if it is spread on a table or held in your lap. The binding is durable and the pages a bit glossy for easy cleanup. I don't think you can go wrong with this great collection.

the stories are quite simplified, which is good for our infant but won't be great as she grows older. the book is in good condition and has all the tales i grew up with so i'm glad we got it.

I bought this book to read to the kids before we went to Disneyland. Most of the stories are abbreviated, but it was perfect for reading to 3-10 year olds.

My son who is now 4 adores this book. It has all the great disney classics. I didnt expect it to be this good since he is all about the gadgets and other things. Anytime if he wants to read he would grab this. My husband reads it to him every night. It has fairly good amount of pictures to go with the stories. Only thing is its a little big and heavy for him to carry around.

The best review I can offer is that this compilation of Disney Favorites reduced to print and art work can captivate my 3 year old grandson - and trust me, not much else that exists on the planet can make that claim. We start by looking at the front cover and he points to one of the pictures and tells me he wants to read "this one". (By the way - there is a problem since dumbo is on the front cover but the story isn't inside - so steer clear of dumbo). Once he makes his selscion we dig into the book and he finds the story by finding the right picture and off we go. There was one occassion when we repeated this process at least 6 times. We read this book for at least an hour. believe me when i tell you that this 3 year old spends a lot of time either riding his training wheeled bike up and down the sidewalk or bouncing off the walls. I love this book - and you and your three year olds will love it too.

Very pleased.

This book was awesome! I was recently invited to a baby shower where in lieu of a card they asked you bring your favorite childhood book. I still have my Disney classics from 15 years ago and wanted so badly to find it and not bring the expected Dr. Seuss books. I was worried about only finding used books, but this book arrived in mint condition and looked brand new. The mother to be, who is obsessed with Disney, loved it!
