Customer Reviews

For its trail guides, the Adirondack Mountain Club divides the enormous New York preserve into several sections, and publishes a precise list of the trails available in each one. This book, like those for all the other regions, comes with a large, detailed fold out map of the area, and describes all the trails available within it. The book not only helps hikers locate and identify landmarks and trail markers, but also rates each trail in accordance with its difficulty, to avoid the obvious dangers implicit in directing weak hikers to hard walks. We've found lots of walks in this wonderful book over the years, and recommend it highly.
