## Customer Reviews

Hannah Lynn is a self-taught American artist, working out of her home studio in Idaho Falls, Idaho. She has been selling her artwork online, at events, and through licensed products since 2006. She grew up in Northern California, where she first discovered her love of art. Like many artists, she has been obsessed with drawing and coloring for as long as she can remember! Her first paid freelance job was when she was just 11 years old (providing a colored pencil drawing of an American Bald Eagle for her science teacher's son as a birthday gift). When she wasn't at school, doing homework, or doing chores, she was drawing, writing, reading, or making something. She earned her Associates Degree in Business in 2007.

This is such a cute book of girly-girl designs. There are 50 different designs, each with its own cute big-eyed girl. Some of the girls reflect fantasy and some are just cute girls. Each and every one of

them is a fantastic opportunity to play with color and to style the design your own special way. I believe this is the first time Hannah Lynn has had a book of designs available in book form. The others that I have were purchased directly and were not books. This grouping is the top 50 fan favorites "so the best of the best (at least thus far!) At the front of the book, there are thumbnails that show you the pictures in order and also what their names are. I think this is a great way of doing a table of contents and I really appreciate that the names aren't printed on the design page. If I choose to put them there, this will give me an opportunity to do it my way. The book is printed on one side of thin but nice grade white paper. The pages are not perforated but the artist has put a double frame around each design with enough room so you can cut a page out without damaging the design. The binding is glued rather than sewn and I was able to break the spine enough to get the book to lay fairly flat to make coloring while leaving the page in the book a little easier. All of my markers bled through the paper. All of my gel pens left a shadow on the backside of the page. My coloring pencils worked really well with this paper as it is nicer than basic grade. If you want to use markers or gel pens, I suggest putting a heavyweight paper behind the page you are working on to keep the ink from seeping further into the book. As the back of the page is blank, you won't be ruining another design.

I absolutely LOVE this book! I have colored so many pages and I know this is one of these books that I will color ALL of the pages some day. There isn't a single page that I found in this book that I thought to myself, "Nah, I don't really like this one." The girls are beautiful. The lines are thick making this a very good book for beginners or advanced artists. Some pages are much easier than others while there are many pages that give a great challenge to those who've been coloring for years. The pages are single sided throughout the book. I would still suggest a few pieces of paper or heavier cardstock underneath the pages you're coloring because the paper isn't very thick and you could bleed through to the next page. There are a total of 50 different girls to color. Each one has a title and name. In the beginning of the book there are two pages of reference pictures with small thumbnails of all the pages in the book with the title of the girl and name. I love these books so much I've bought her other two books also. Hannah Lynn is a beautiful artist and I hope she continues to make these girls because I absolutely love drawing and coloring with them.

The design in this coloring book are wonderful, there is not one that I don't enjoy coloring. I love every big eyed girl, they are so much fun to color. You will find fifty beautiful big eyed girl in this coloring book, each one only on one side of the page. I love that about this book. This is a great

coloring book for teenagers and adults alike. I would not put this in the hands of anyone younger the design are just to nice for kids to squabble in. Even though I love every design in this coloring book, they are so nice but, I just can't give this coloring book five stars review because of the very poor quality of paper used to make this book. The paper is so thin you can see the next design under the one you are working on. I used coloring pencil, gel pens to color in this book with a thick cardstock between each page to protect the next design. I would not use markers because of the thin paper. The paper barely holds up under the use of gel pens, it's look like to much water paint was used. Great design but bad paper. I recommend this coloring book because I love the design. Just wish they used better paper.

I absolutely love this coloring book. It has the perfect mix of simple and complicated images, on single sided sheets and they're all absolutely beautiful!

The new must have in adult coloring and Hannah Lynn fans. This book is packed full of incredible artwork that will guarantee hours of fun, relaxation and creativity. And yes we adults are entitled to sit and fill our lives with color and no experience necessary :) The hardest thing is choosing which page to start first.

Love this character and this book! Coloring in this book really takes me away to a quiet and serene place! I light a candle, grab a glass of wine and color my cares away!!! I'm learning the skill of coloring skin tones with the help of Hannah Lynn!!!

Very happy with it. One of my favorite coloring books.

Love, love, LOVE! I could spend days sitting and coloring these girls if I didn't have kids to take care of lol.
