# Seven Spoons: My Favorite Recipes For Any And Every Day

### Synopsis

The much-anticipated debut from the author behind the popular food blog Seven Spoons, featuring distinctive, crowd-pleasing recipes; engaging, writerly essays; and the same stunning photography that has earned her website a devoted following.Tara O'Brady was one of the earliest food bloggers to enter the scene, and now, more than ten years after she first started Seven Spoons, she has become one of the most highly regarded and unique voices in the culinary arena. In her debut cookbook, Seven Spoons, O'Brady shares stories and recipes from her Canadian home--fresh, ingredient-driven food that is easy to make yet refined. Recipes like Roasted Carrots with Dukkah and Harissa Mayonnaise, Braised Beef Short Ribs with Gremolata, and Plum Macaroon Cake are wholesome, hearty, and showcase the myriad culinary influences at work in O'Brady's kitchen. Her evocative writing and gorgeously simple, elegant photography has earned her accolades from Saveur magazine, the Daily Mail, and more. Impeccable food photography and a lavish package round out this beautiful, personal collection.

TARA O'BRADY is the author of Seven Spoons, a food blog she started in 2005. She lives in Southern Ontario, Canada, and is married with two sons. She has a regular column in Uppercase magazine and appears periodically in the wildly popular quarterly Kinfolk. She has written for or worked with the Globe and Mail, BonAppetit.com, Saveur.com, PBS.com, Parenting.com, StyleAtHome.com, Ã Â Design\*Sponge, Oprah.com, and more.

These are not ingredients that most people will have on hand, and if you need something quick and easy, you won't find this cookbook useful. However, there are some really great and different recipes in here that given the time, are probably amazing. I do love how the author writes in such a personal and personable way. I was hoping for something a little more useful for everyday. The pictures are gorgeous.

Great cookbook. So far I've made the chocolate chip cookies (excellent) and the soused tomatoes. I wish, however, that the pages were a waxed paper instead of a matte paper so they were slightly cleanable and I wish there were a few more pictures.

Perfect for me. I have diabetes make up most of my own recipe or tweak one's I find. There is nothing in here I wouldn't make for myself and or guest. These recipes are easy and most other the ingredients are in my pantry. I was drawn to this book because of the turmeric elixir and and golden honey I saw on her blog, which I also recomend. I am delighted I purchased it.

Some of my bloggers kept mentioning this book, so I bought it. Made the Blueberry snacking cake, and had to make it again it was so good. Love her food sensibilities, style, and look forward to doing more exploration and experimenting with her recipes.

Pros:Beautiful photographs for many of the recipesSome tasty sounding recipesThe recipes are not replicas from her blogKindle version well presentedCons:Not a lot of recipes that grabbed me (too much Indian / middle eastern influence for my personal taste, and my pantry is not well-stocked for

those cuisines)Flowery writing that is more poetry than cookbook (Which may appeal to some)Her style of recipes are available for free on her blogl did bookmark 5-6 recipes I'd like to try, but I'm not sure the book is worth keeping for that.

The recipes easy to follow and the art is beautiful!

Beautifully written book. Tara's writing style is like having a friend write for you. She has lovely anecdores along with her recipes which are a great mix of flavours and everything from healthy and nourishing to treat food. There are so many wonderful recipes I want to try and she makes those recipes easy to follow. It's such a warm and wonderful book and her heart and soul are definitely in every page! My only drawback was that a few recipes didn't have photos but you can't have it all I guess.

Love love love, if your a cook looking for unique and creative recipes you will appreciate this book! <u>Download to continue reading...</u>
