Customer Reviews

Very helpful study aid for AP Gov exam.

The teacher I bought this for has enjoyed using it in the classroom.

I liked that there were 500 questions, but this book will do very little to help students in AP Government. It seems like the writers did very little research. They just kind of threw 500 questions

about anything government related, and made sure they had 5 choices. The questions are poorly constructed and do not represent what students are expected to know for the exam. This is a horrible book to study by. As a teacher of AP Government, I would urge all of my students never to get this book.

great book in great condition!

Bought this for Grand Daughter and it was Prime. Came on time as expected.

nice book

I loved that there were 500 questions, and this book will do very much to help students in AP Government. It seems like the writers did so much research. They carefully curated 500 questions about government related matters, and made sure they had great choices. The questions are constructed very well and represent what students are expected to know for the exam. This is a great book to study by. As a student of AP Government, I would urge all of my teachers to buy this book.

Having used the 5 steps to a 5 for APUSH, I thought that these questions would be a good review for students. What I found is that the demand of APGOPO is specifics, while this review book has multiple questions that are vague and useless. Other AP tests are adept at maintaining a consistent language/terminology, which seemed to have been ignored in order to hit the standard 500 questions. I hope that other APGOPO teachers read this and challenge this, or agree with my view of it.
