One Man's Art (The MacGregors)

Synopsis

#1 New York Times and USA Today bestselling author Nora Roberts enchants again with this beloved classic about the passionate and headstrong MacGregor family. Grant Campbell was a loner—rude and impossible! Yet as soon as he opened the lighthouse door to Genevieve Grandeau on that stormy night, she was lost. Underneath his gruff, handsome exterior, he was intelligent, sensitive—and slightly scarred. To Gennie, loving meant sharing, trusting. But Grant was hiding in the shadow of the past, afraid to move beyond it. She'd have to convince him that their love was a beacon for the future—but how?

Customer Reviews

Nora Roberts is the #1 New York Times bestselling author of more than 200 novels. She is also the author of the bestselling In Death series written under the pen name J. D. Robb. There are more than 400 million copies of her books in print.

book is great read the characters are fun what I did not like was how the heroin turned out to be world famous as did the hero that said I loved how the hero was Asperger's but it was never brought up or even mentioned the traits he displayed just made him read like it . I liked how neither the hero or the heroin was trying to force the other to make a commitment . the man was like able not the sex obsessed jerk Nora has written about flaw that has made me shake my head and try to figure out why the girl would tolerate the bastard not just slap the hell out of him and uninvited or initiated

nibbling on her lip other than it might cause him to hurt her lip. I love how Nora wrote the book but some time there needs to be a little more reality I probably would have graded it high except I just read part one of the Brides quartet it was a thousand times better the characters were more real even her hero. A laugh and by the end of the book you really do want the couple to get together

This was a great book....15 years ago. While I am a huge Nora Roberts fan and love to follow the MacGregor family, I am disappointed that Nora puts a new cover on her old books and then I buy them for full price not realizing I had read them before. Additionally, a lot of her books are dated.

I love Nora Roberts! I am in the midst of reading all the MacGregors...one of many and as usual, a great read!

I really like the cd. ...

Somehow I ended reading this book out of order in the MacGregor series, but it still seemed complete and whole without the context of the other stories. Roberts always spins an incredible, happily ever after tale, which is what makes her audience clamor for the next book. If there is any criticism at all, she might have provided just a tiny bit more time explaining why the male protagonist was so surly and moody. But really, it is a Nora Roberts novel. What's not to love.

Some of her trilogies are excellent this was not, I realize it was not a trilogy but for lack of a better word. I would purchase anything with Nora Roberts name on it I have enjoyed so many of her books.

I really enjoyed this book in the MacGregor saga even though the main characters are not MacGregors. As to be expected with most Nora Roberts books the characters do not admit they are in love until the end but I enjoyed the ride. It was also fun to see the MacGregor clan through non-family eyes.

This book is one of the books in the MacGregor series which is one of my all time favorites by Nora. Her writing always makes you feel like you are a part of the story. With her writing, I feel like I am in the story experiencing everything the primary players in the story are feeling. I become absorbed within the story and relax and forgot about everything. You will truly enjoy enjoy it.
