Nicolaus Copernicus: Father Of Modern Astronomy (Signature Lives: Scientific Revolution)

Synopsis

A biography profiling the life and controversial ideas of Nicolaus Copernicus, the founder of modern astronomy who through his observations of the stars and planets, discovered that the sun was the center of the universe, which challenged the teachings of the Roman Catholic Church. Includes source notes and timeline.

Customer Reviews

Barbara A. Somervill has been writing for more than 30 years. She has written newspaper and magazine articles, video scripts, and books for children. She enjoys writing about history, science, and investigating people's lives for biographies. Ms. Somervill lives with her husband in South Carolina.

My younger brother asked me to order this for him. When it arrived, I was leafing through it. Never knew I had an interest in Copernicus. Great read!
