Planting Designs For Cactus & Succulents: Indoor And Outdoor Projects For Unique, Easy-Care Plants--in All Climates

Synopsis

No green thumb? No problem! Succulents are the ultimate low-care plants, able to withstand erratic rainfall, poor soil, and outright neglect—they almost never need pruning, watering, feeding, or fussing over. That, along with their astounding range of colors and forms, makes them ideal for those who want an attractive yet low-maintenance container planting or landscape view. In *Planting Designs for Cactus & Succulents*, a book made for the gardener and non-gardener alike, you'll find information and design inspiration for adding these plants to your interior and exterior spaces. Authors Sharon Asakawa and John Bagnasco, with well over half a century of gardening experience between them, offer expert tips for selection, planting, and care, then show you how to beautifully incorporate cacti and succulents into your particular environment. More than twenty step-by-step how-to projects are paired with gorgeous photographic demonstrations, teaching you how to make your own terrariums, dish gardens, living "paintings," xerispheres, bouquets and centerpieces, hair ornaments, natural walkways, birdhouse roofs, picture frames, seasonal arrangements, and more. Just when you'd given up, *Planting Designs for Cactus & Succulents* comes to the rescue as your comprehensive guide to the plants that can survive in some of the least nurturing environments on Earth—even if that happens to include your house.

Customer Reviews

"This book is a most unique volume, suggesting indoor and outdoor projects for easy care cactus

and succulents in all climates? – this book should be in every flower arranger's library"

– Gardening & Botany Magazine

Sharon Asakawa and her husband Bruce are, without question, the most highly respected gardening experts in California. Sharon has been part of the nursery industry for decades. She began working in their family gardening center shortly after marrying Bruce in the early 1960s. Ultimately, she was in charge of the floral department where she gained hands-on practical experience. As their business grew, Sharon and Bruce began leading garden tours to great locales around the world, helping introduce the garden travelers to notable gardens and plants. In addition to this book for Cool Springs Press, Sharon is the author or co-author of Bruce and Sharon Asakawa's California Gardener's Guide, California Gardener's Handbook, California Gardening Rhythms, Jackson & Perkins Beautiful Roses Made Easy, and Jackson & Perkins Selecting, Growing, and Combining Outstanding Perennials. She is also co-host of the nationally syndicated GardenLife Radio Show, which reaches 1.1 million listeners every weekend. John Bagnasco has been an integral part of the gardening industry for more than 45 years. After working for many years at nurseries and garden centers in Michigan and California, Bagnasco joined Creative Promotions in October 2000 as a senior magazine editor and radio personality for Garden Compass. He is currently the president and co-host of the nationally syndicated Garden America Radio Show, which reaches 1.1 million listeners every weekend. He is also the president of www.GardenTube.com, a YouTube-type site for gardeners. Additionally, he is a managing partner in SuperNaturals Grafted Vegetables, LLC., has also taught horticulture classes, and is a rose breeder who introduced over a dozen new varieties. He was host of the DVD The Essential Guide to Roses. Bagnasco's other books include Planting Designs for Cactus and Succulents and Plants for the Home Vol I. Robyn Foreman is a highly skilled and trained floral designer with more than twenty-five years' experience. Her business specializes in custom upscale events with a focus on decor and outrageous florals. Nothing is off limits in her design work; if it's beautiful, alive, and can't run away on its own, it's going in an arrangement! Cacti and succulents are perfect for creating many intriguing, lavish looks. Robyn has been featured in the Better Homes and Gardens special-interest publication Country Gardens Magazine, with her fresh take on combining flowers with succulents in everyday arrangements. Shaun Buchanan is a professional User Experience designer and has been designing and photographing for the last decade. As an in-house designer at a plant nursery in North County San Diego where he currently resides with his wife Kate, he developed a love for cacti

and succulents while photographing and designing ads for marketing material. This is his first book project.

Great book. Lots o ideas and loads of information on succulents, their types and propagation. A wonder addition to my library.

Totally Awesome book!!!

I received this book in quality fashion and it is a great publication Isuggest it as a reference in anyone's garden library.

Great book with helpful guides and in-depth step-by-step instructions. Pictures too, for the instruction-challenged. Florida climate is perfect for these.

I bought this book for my son-in-law. The layout is nice and it has plenty of ideas for those interested in getting started or those looking for info about specific types of succulents or cactus. I know he will like it!

Love the information and pictures. Easy to read or just refer to when I have a question. A great reference book for the beginner and dabbler such as I am.

I thought this book would be more of a book to help me identify the succulents & cactus that I have. It is more of a decorating book, but it has nice pictures.

Awesome pictures! Beautiful container plantings! Beautiful arrangements!
