# ATV Trails Guide Arizona Phoenix Region

## Synopsis

ATV Trails Guide Arizona Phoenix Region documents 30 of the best ATV and UTV trails around Phoenix. The book includes more than 180 color photos, a custom map for each trail and step-by-step instructions along the routes. GPS waypoints make it nearly impossible to get lost. Every trail has a description page telling how to find the trail, where to park, the best places to camp and what to expect during the adventure. The book's introduction covers trail selection, Arizona's OHV laws, safety, local weather, rider's responsibilities, global positioning, desert survival and more. For complete trail listing and a look inside the book visit the FunTreks website. Visit Funtreks website for GPS trails now available on SD cards for use in Garmin NUVI, Garmin Handheld devices, Iphone and Android devices.

## Customer Reviews

As a new ATV I needed some good ideas on places to go riding around Phoenix. This book had some good ideas and great descriptions for somebody unfamiliar with the area. The trails are well described, GPS points included, and finding trailheads and parking is noted, as well as some pictures of what to expect. General descriptions of the area and surrounding area is good, but this is the area I thought the book could be more useful. Basically every trail you ride has many spurs and branches - more of those should be covered so you can "ride an area" over the day rather than just a precise loop and set of trails they mark out. Don't get me wrong, the loops and such are good, but when there is a phase like many side trails to the west to explore ... that peaks my curiosity, but

without map or guidance it requires more research and maps from another source to really do it. So if I could improve I would beef up the maps and descriptions to highlight more trails off the primary one being described. That said, this book rides in my carrier all the time and I use it frequently ... very happy with the purchase.

I have bought 3 of these guides. One for myself and 2 as gifts for friends. I have gone on about 6 of the trips. We have a Polaris Ranger (Crew size) and often have 5 people on board. I have found the ratings for the trails to be very accurate. I really don't want to get in over our heads and I really rely on this book for that. The directions and added information about the areas we travel to is also accurate and interesting. I highly recommend this guide to anyone wanting to do some atv'ing in Arizona. Have fun and be safe.

I bought this book to add to my collection of off road trail books as I already have the author's Arizona Backroads and 4 Wheel Drive Trails book. I ride mostly in the Northwestern area of Arizona but do make it to the Phoenix based areas for an occasional ride. These rides are usually posted and led by someone other than myself but it is nice to do a little research on the ride and many of them are and have been in this book. It appears to be a good book on many of the "Standard" rides in the area and a good choice for one's Arizona Trailbooks library. The quality of the book is very good and the colorful pictures and maps add much to the book. It is a staple in my collection.

I have the book and love it. It has a lot of great information in it. There is a lot of great info and discriptions. You can tell the author spent his time researching. Lucky guy, to ATV all over the place and then get paid for it. I have already tried 3 trails and have more on my radar. The only thing I didn't really like about the book was that I had to convert the GPS coordinants so they could be used in my Garmin, different formats. I found a web site that helped but it did take some time. You can even plug them into Google Earth and see it before you ride it.

Havent used the book yet but looks like it will be good.

Excellent guide for Phoenix and surrounding area. Divided into easy, Med, and difficult trails. Very informative with pictures.

We have a Razor that we take out into the desert in Arizona. This book was very helpful in choosing

some new sites to see!

For the person who loves to trail ride then this is the book for them. This is an excellent guide book for anyone living in Arizona. Why guess where to ride when this book will show you all the trails you're looking for.
