Because this is the latest issue, this Fodor's turned out to be very helpful on our trip. We knew before we went the cost and where might be the best place for our event or meal as well how close to our condo they might be located. The map in back as well as those throughout the book were invaluable as we drove. I would definitely recommend it to anyone visiting Oahu.

Lived there 20 yrs ago and bought this before going back. A great and accurate refresher to plan our visit.

This book is definitely a must have if you are visiting Oahu. It has a lot of good information that is necessary for this island. I would recommend anyone going to Oahu to get this book.

Fodor's Oahu book was great while we were on vaca in Oahu. It detailed all the different areas and attractions, and was small enough to go everywhere with us. We were at Ko Olina resorts in the west and would go there again while in Oahu. Waikiki was a too crowded and busy area, so glad we made the choice of location that we did!

Reading it from the beginning to the end on Kiindle I enjoyed each chapter-especially when you can skip around. Great reading on plane to HI- combined with my reading of Michtener's HAWAII-it gets u ready for the language/places.

Wore this book out on our Hawaii vacation. It was fantastic and the reviews were right on. Saved us time and money.

This book has very "readable content". The layout was well thought out and the "tips" are well placed within the content. Of all the books I have used for pre-trip research, this has been the most helpful.

This book was helpful in finding some extraordinary botanical gardens on Oahu, and all of the key tourist destinations. The one failing, which no doubt has to do with the financial decline, is that many of the restaurants listed in the book are no longer open. We found it was best to call first to confirm they were still open before driving over to them. About half of them were not. Otherwise, the book contains a wealth of great information that will make your trip much more enjoyable. Fodor's would do well to have an updated version on the web.
