# Butterflies And Flat Tyres: From Zurich To Singapore Via Siberia

## Synopsis

Butterflies and Flat Tyres: Zurich to Singapore via Siberia, is Lorraine Spence's remarkable, often hilarious, travelling memoir detailing her extraordinary trip from Zurich, on first a Suzuki DRZ 400 (aka, Dizzy), and when Dizzy died, a Suzuki DR650 SE (aka, Dozer). Lorraine journeyed for six months, over 33,000 kilometres, spending fifty percent of her time riding with three different groups of adventure motorcyclists on various legs of her journey, and fifty percent riding completely solo, unsupported. Prior to this, Lorraine had done a reasonable amount of trail biking, but was not what you would call the world's most experienced adventure motorcyclist. Lorraine's account of life on the road (or thing that possibly once vaguely resembled a road) veers between moments of comedy, days of difficulty, great challenges, and often, scary situations. One of the pinnacles of her trip, Lorraine became the second woman (the other being a local Russian lady), to ride the western half of the BAM Road, which is considered to be one of the toughest adventure motorbike routes. The Baikal-Amur Mainline is a Russian railway line traversing Eastern Siberia and the Russian Far East. It runs 4,324 kilometres, and is parallel to the Trans-Siberian railway (about 700kms distant), to which it was built as a strategic alternative. It has a fascinating (and rather gruesome) history, mostly having been built by prisoners. The BAM Road is the railway's service track and is in exceedingly poor condition, with collapsed bridges, bogs, dangerous river crossings and ridiculous potholes. The BAM is only passable by off road vehicles and adventure motorcycles, and indeed, very few people have ridden this trail. Even Ewan McGregor and Charlie Boorman in 'Long Way Round' shied from the challenge, diverting by train. As a testament to Lorraine's courage and incredible spirit, she chose to ride the Vitim Bridge, one of the most notorious bridges along the BAM: high up, narrow, rotting timber, no rails, with a raging and very wide river beneath. Lesser men dismount, and walk their bikes across, but according to Lorraine: 'It's not that scary... if you don't look down.' To quote the 'Tough Miles' adventure motorcycle dudes (who dismounted for the Vitim crossing): 'To ride that, you must have balls of steel.' That's Lorraine! Jeff Kill, the owner of Kudu Expeditions, with whom Lorraine traversed the western half of the BAM Road as well as other parts of her trip, clearly admires Lorraine, saying: 'Lorraine should be an inspiration to any woman wanting to do it (adventure motorcycling), and should be a lesson to all guys on how to.' By Cerian Griffiths (author of Jade & the Deva)

## Customer Reviews

What great fun to ride along for 6 months! As other reviewers have pointed out the spell check and editing is incomplete, but none of that matters. The adventure and riding and scenery take over instantly and transport you, which is the point after all.

Very easy to read. Hard to put down.

Great read, amazing journey by an amazing woman

I ordered Butterflies and Flat Tyres because I like riding motorcycles and I do take long journeys on them so I usually enjoy fellow bikers' stories. This one felt like a cheap attempt to collect royalties at the expense of the reader/payor: the author obviously did not respect the reader enough to go through the effort of editing the text. I have no idea what the others saw in this book: it is boring, badly written and the story fails to captivate. I felt I was reading a teenager's diary. If you can stomach repetitive OMG's, :) and multiple "very this or very that" in the same sentence and if you have patience enough to labor through pathetically shallow, self-centered musing then try it: it's your money after all.

Some people have so much courage, those that do adventures like this could go on to do anything

, a great read .

I loved reading the book because Lorraine is so real and down to earth and I feel like I know her as I read. I would recommend the book to anyone because it will inspire you to get going on those bucket list items. Could have been edited better but somehow that really doesn't matter with this book. Well done Lorraine and I hope you do more trips - I look forward to reading more of your adventures.

very good book. little disjointed two thirds through but gets back on track and finishes well. lots of spelling mistakes

Really enjoyed this book, it made me feel as though I was alongside all the way - not that I would be I'd have fallen off! Lorraine has gone places very few people would have gone to and to do this on bikes (various ones!) was truly impressive. Hopefully there will be more travels as I would certainly like to read more.
